(57) **CLAIM**
The ornamental design for a shoe midsole, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a shoe midsole showing my new design;
FIG. 2 is a side view thereof; and,
FIG. 3 is a rear perspective view thereof.
The contrast in shading between the regions of the shoe visible through the translucent outer surface represents a contrast in color appearance between the regions. The broken lines immediately adjacent to the shaded area represent unclaimed boundaries of the design. The broken lines showing the remainder of the shoe are for environmental purposes only and form no part of the claimed design.
