(57) **CLAIM**

An ornamental design for a display screen with graphical user interface, as shown and described.

**DESCRIPTION**

The sole FIGURE is a front view of a display screen with graphical user interface displayed on an electronic device that presents a charging indicator and control feature.

The two outer broken lines illustrate the display screen and forms no part of the claim. The remaining broken lines illustrate portions of the graphical user interface and form no part of the claimed design.

**1 Claim, 1 Drawing Sheet**
