(57) **CLAIM**

The ornamental design for a display screen with call center performance graphical user interface, as shown and described.

DESCRIPTION

The FIGURE is a front view of the display screen with call center performance graphical user interface, showing our new design.

The outermost broken line perimeter showing the display screen and the broken lines within showing portions of the graphical user interface, including the broken line text, are provided for the purpose of illustrating portions of the article and forms no part of the claimed design.
