(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

The FIGURE is a front view of a display screen with graphical user interface showing our new design. The difference in shading indicates a contrast of appearance and does not depict any particular color, texture, or material. The broken line showing of the magnifying glass, the remainder of the graphical user interface, and the remainder of the display screen is for environmental purposes only and forms no part of the claimed design.
