FIG. 1 is a top perspective view of a steam injecting brewer showing my new design;
FIG. 2 is a top perspective view thereof with lid in open position;
FIG. 3 is an exploded perspective view thereof;
FIG. 4 is a front elevational view thereof;
FIG. 5 is a front elevational view thereof with the lid in open position;
FIG. 6 is a right side elevational view thereof; and,
FIG. 7 is a right side elevational view thereof with the lid in open position.

The steam injecting brewer design is characterized by the stout shape, round contours, incorporation of a circular bowl with spout, and a protruding half-sphere with lateral concave hole.
