(57) **CLAIM**

The design for a container shaped like a rhinoceros horn, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of my new design for a container shaped like a rhinoceros horn;
FIG. 2 is a side view of my new design for a container shaped like a rhinoceros horn;
FIG. 3 is a front view of my new design for a container shaped like a rhinoceros horn;
FIG. 4 is a back view of my new design for a container shaped like a rhinoceros horn;
FIG. 5 is a top view of my new design for a container shaped like a rhinoceros horn;
FIG. 6 is a bottom view of my new design for a container shaped like a rhinoceros horn; and,
FIG. 7 is the side view depicted in FIG. 2 showing that the container may be separated into a cap and a portion for holding contents, said cap and portion for holding contents being reversibly mateable.
The broken line showing in FIG. 7 is for illustrative purposes only, and forms no part of the claimed design.
