(57) **CLAIM**

An ornamental design for a control puck, as show and described herein.

DESCRIPTION

FIG. 1 is a top, front perspective view of a control puck according to our new design, the control puck being symmetrical about a central vertical axis; and, FIG. 2 is a top plan view of thereof. The broken line representations of cables in the figures depict environment, and form no part of the claimed design. The broken lines on the top surface depict portions of the control puck that form no part of the claimed design. The nature of this product is a control interface, such as a display control interface for a collaborative workspace.
