FIG. 1 is a front view of a first image of a display screen with transitional graphical user interface;

FIG. 2 is a front view of a second image of the display screen with transitional graphical user interface;

FIG. 3 is a front view of a third image of the display screen with transitional graphical user interface;

FIG. 4 is a front view of a fourth image of the display screen with transitional graphical user interface;

FIG. 5 is a front view of a fifth image of the display screen with transitional graphical user interface;

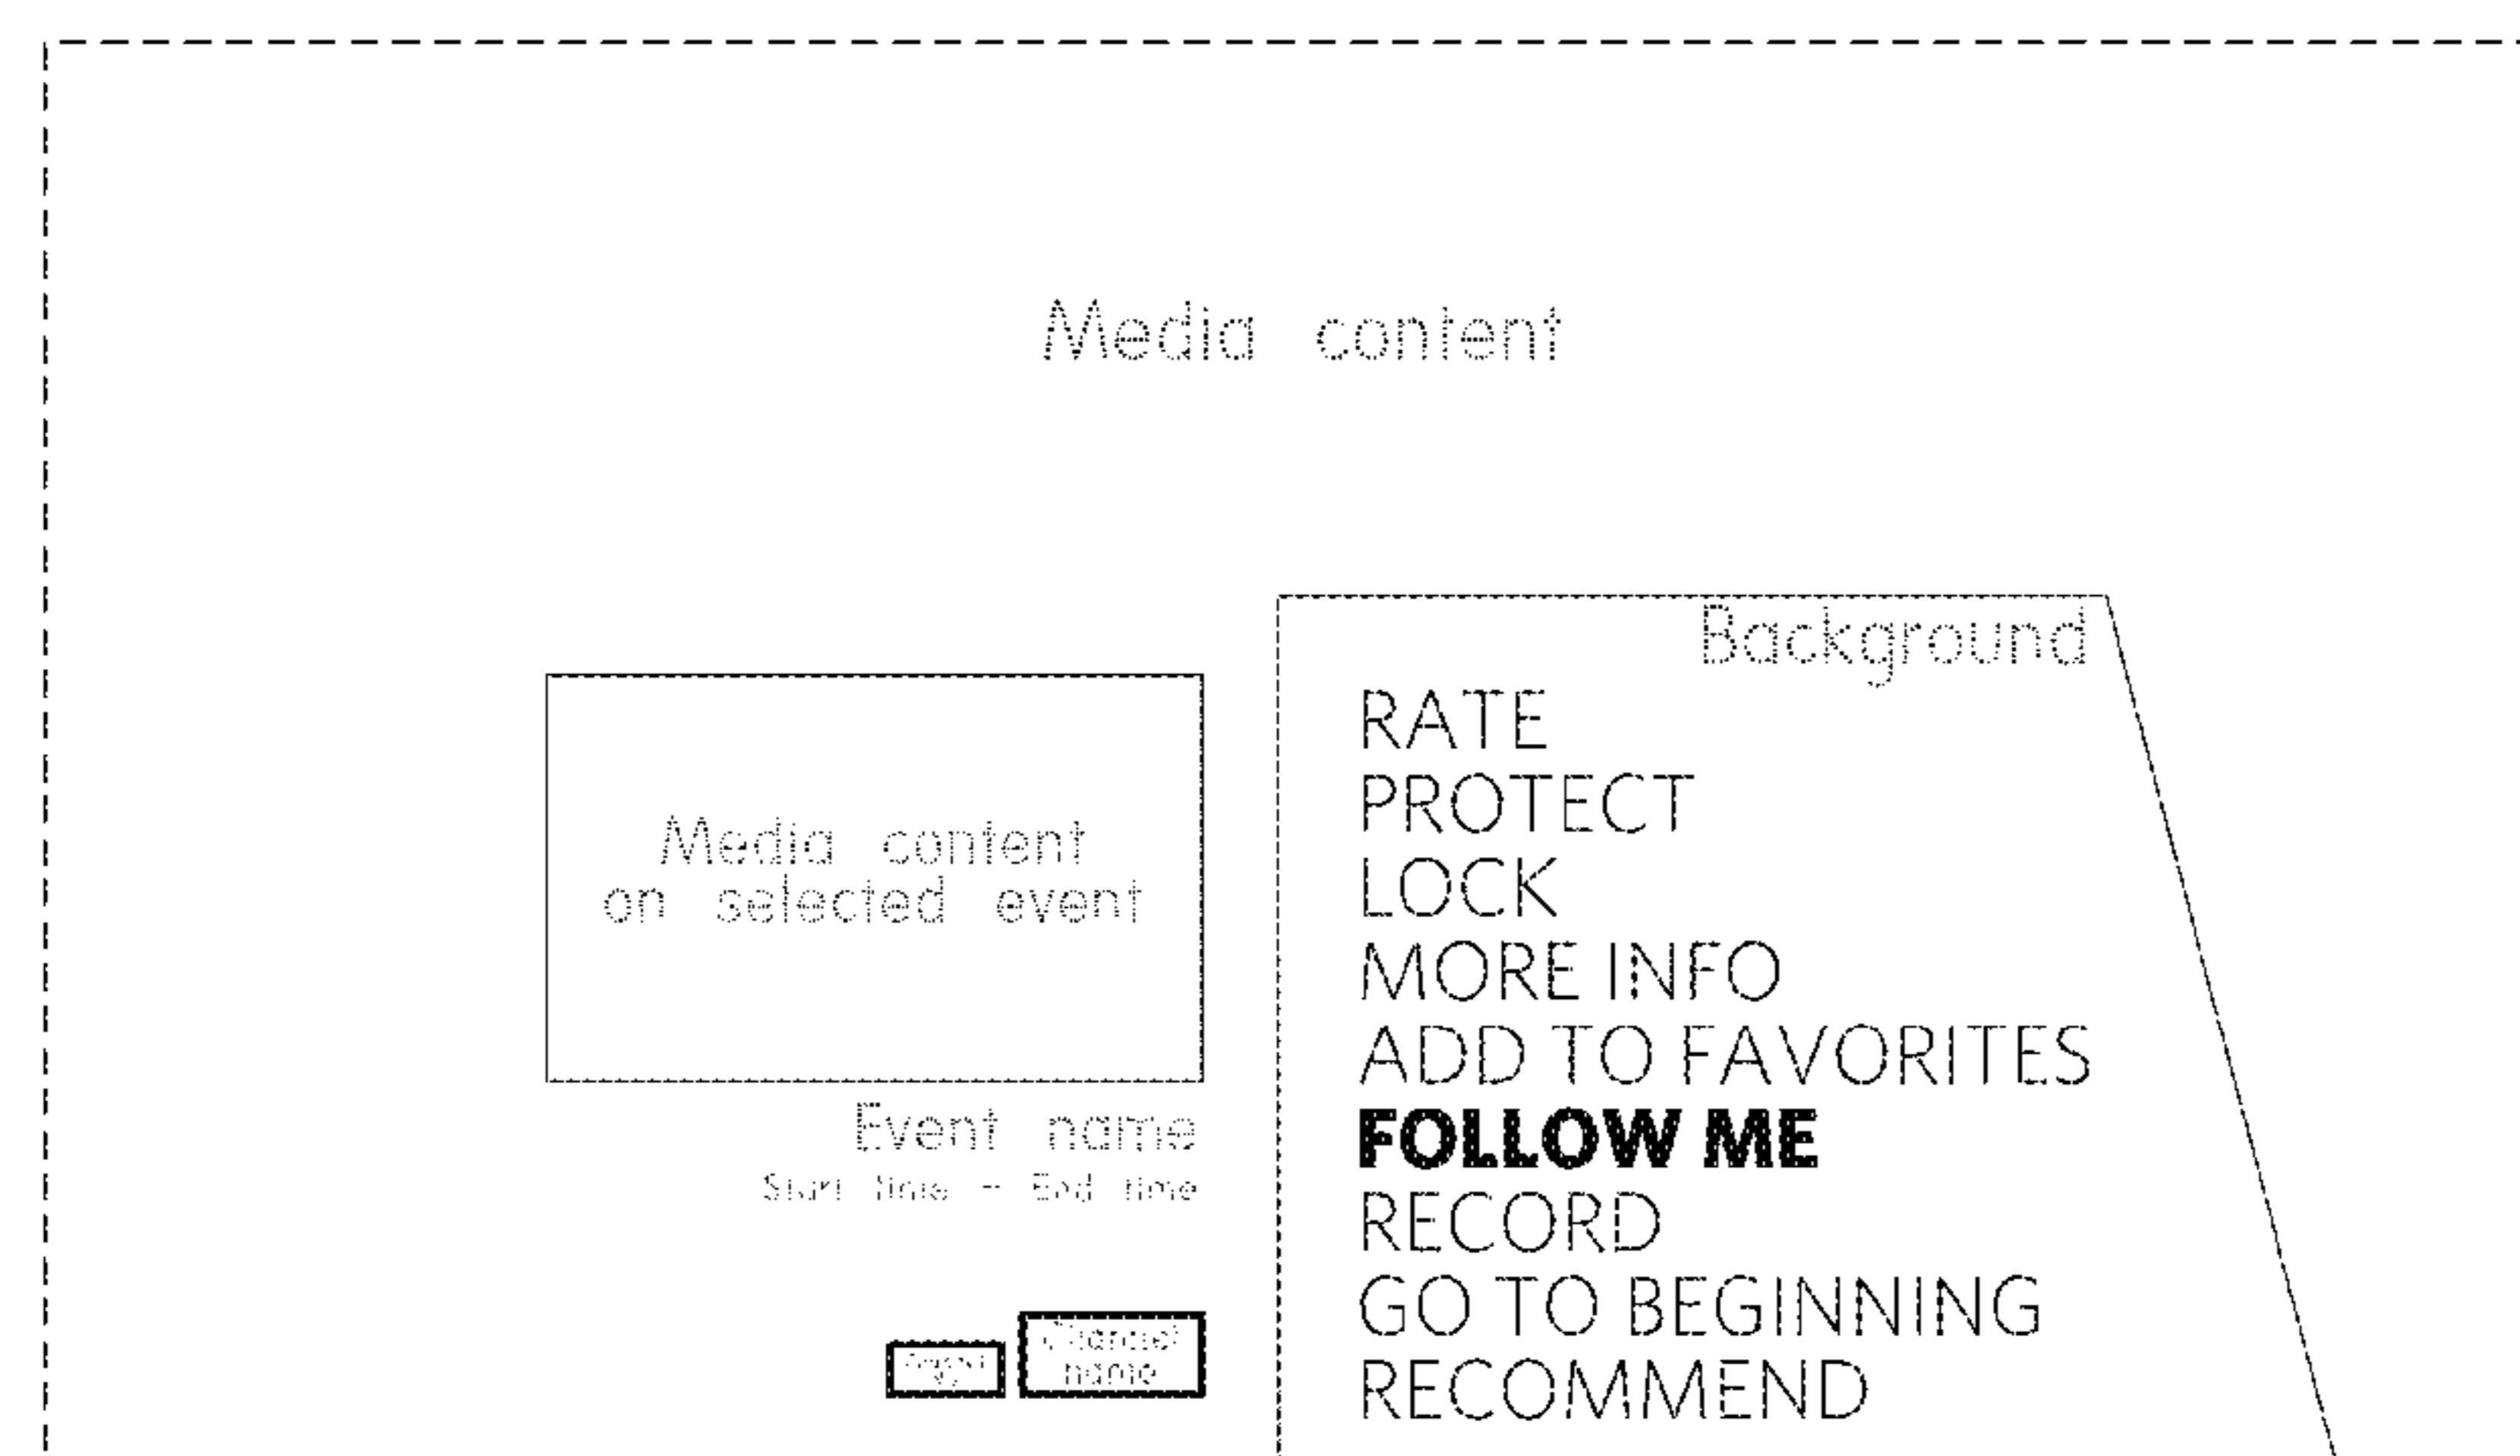

FIG. 6 is a front view of a sixth image of the display screen with transitional graphical user interface; and,

FIG. 7 is a front view of a seventh image of the display screen with transitional graphical user interface.

The broken lines forming the outermost perimeter and the dotted line text of the display screen with graphical user interface illustrate portions of the article of manufacture, and form no part of the claimed design.

The arrows shown in FIGS. 2-7 do not form part of the claimed design.

The appearance of the display screen with user interface sequentially transitions between the images shown in FIGS. 1-7. The process or period in which one image transitions to another forms no part of the claimed design.
