(57) **CLAIM**

The ornamental design for a display screen with transparent animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is the first image in a sequence for a display screen with transparent animated graphical user interface showing our new design;

FIG. 2 is the second image thereof; and,

FIG. 3 is the third image thereof.

The appearance of the transparent animated graphical user interface sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another forms no part of the claimed design. The outermost broken line showing of the display screen with graphical user interface is included for the purpose of illustrating the article and forms no part of the claimed design. The broken lines within the display screen show portions of the graphical user interface and form no part of the claimed design.
