(57) **CLAIM**

The ornamental design for a display screen or portion thereof with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with animated graphical user interface showing a first image of my new design; and, FIG. 2 is a second image thereof.

The clustered line segments within the horizontal bar toward the bottom of the figures form part of the claimed design. The outermost broken lines in the Figures show a display screen or portion thereof, and form no part of the claimed design. The other broken lines in the Figures show portions of the animated graphical user interface that form no part of the claimed design.

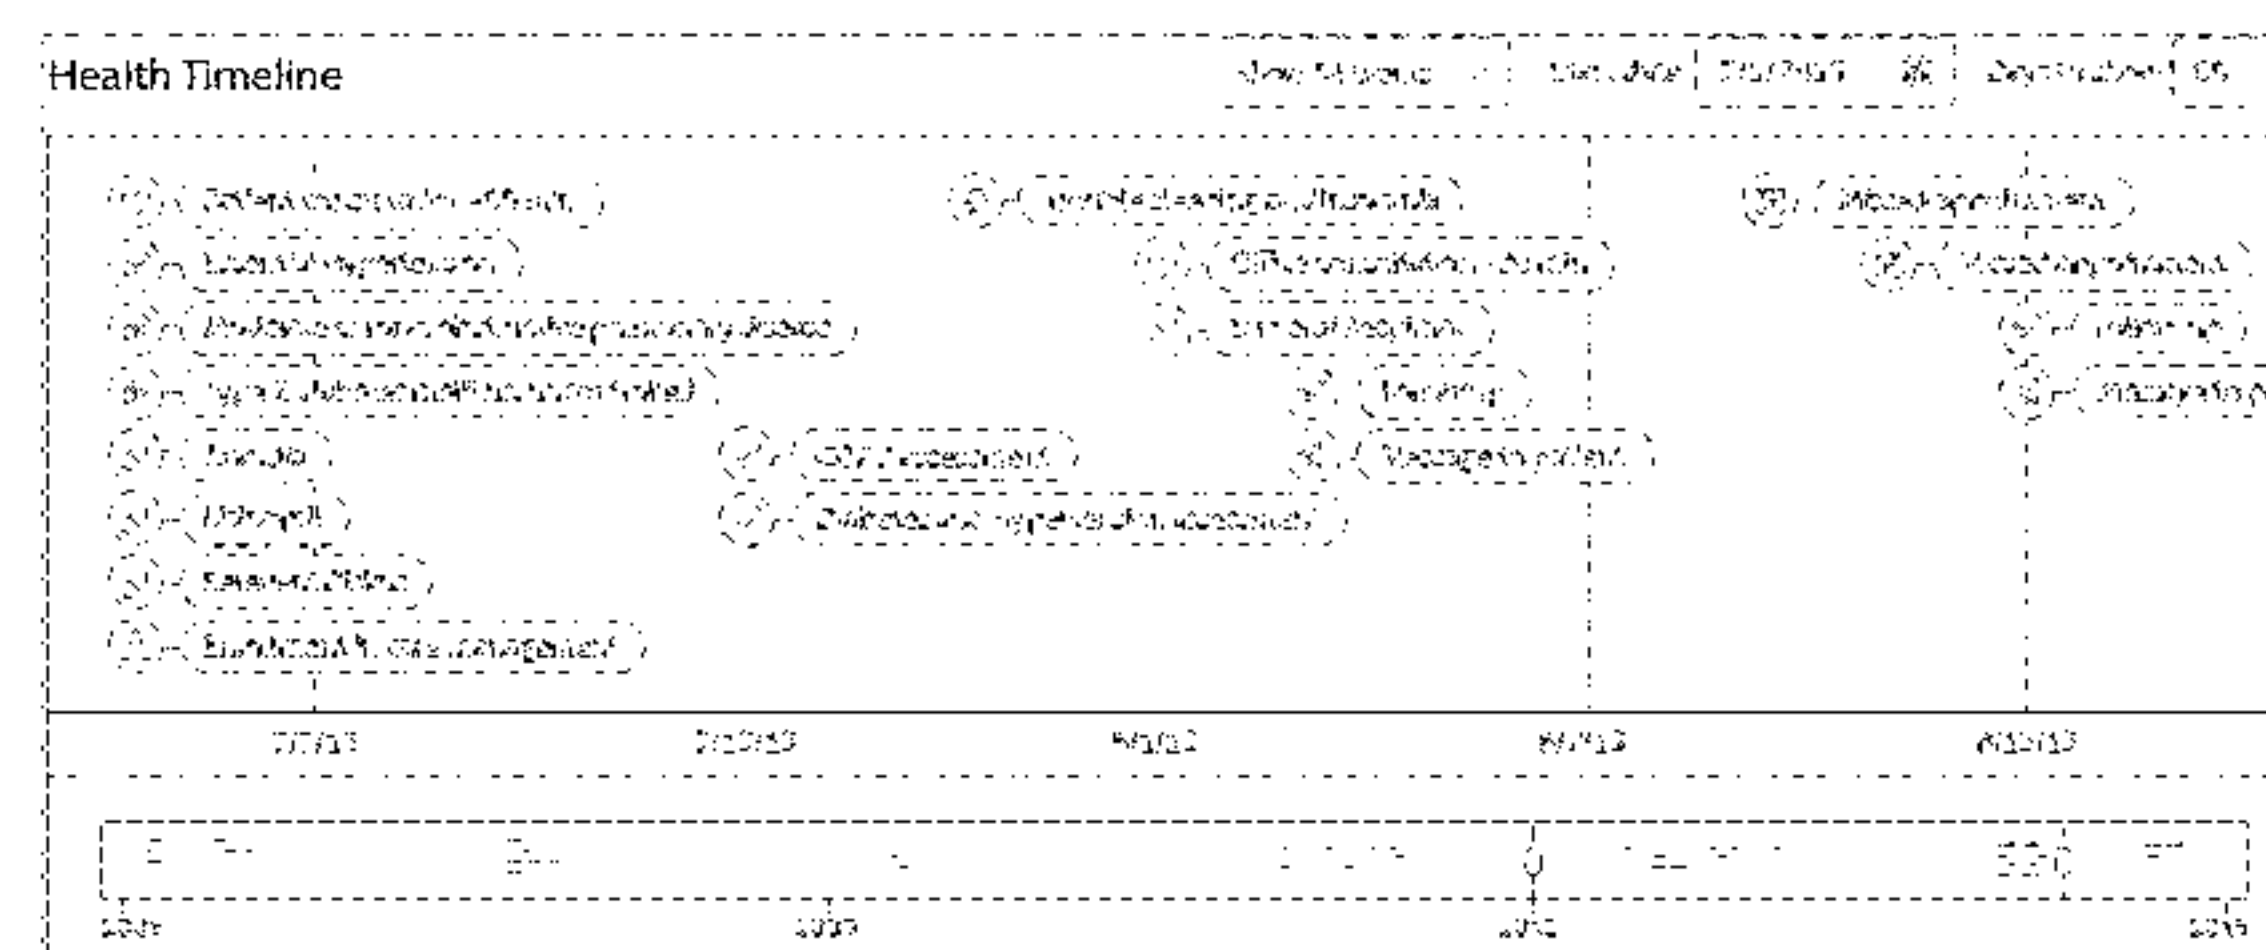

The appearance of the animated images transitions between the images shown in the Figures. The process or period in which one image transitions to another forms no part of the claimed design.
