CLAIM

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a first embodiment of a display screen with graphical user interface showing my new design;

FIG. 2 is a rear elevational view showing the design for the display screen with graphical user interface of FIG. 1;

FIG. 3 is a left side elevational view showing the design for the display screen with graphical user interface of FIG. 1;

FIG. 4 is a right side elevational view showing the design for the display screen with graphical user interface of FIG. 1;

FIG. 5 is a top plan view showing the design for the display screen with graphical user interface of FIG. 1; and,

FIG. 6 is a bottom plan view showing the design for the display screen with graphical user interface of FIG. 1.

The broken lines shown in the drawings illustrate portions of the display screen with graphical user interface that form no part of the claimed design.

1 Claim, 4 Drawing Sheets
