(57) **CLAIM**

The ornamental design for a display screen with graphical user interface for network topology display, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a first image in a sequence for a display screen with graphical user interface for network topology display;

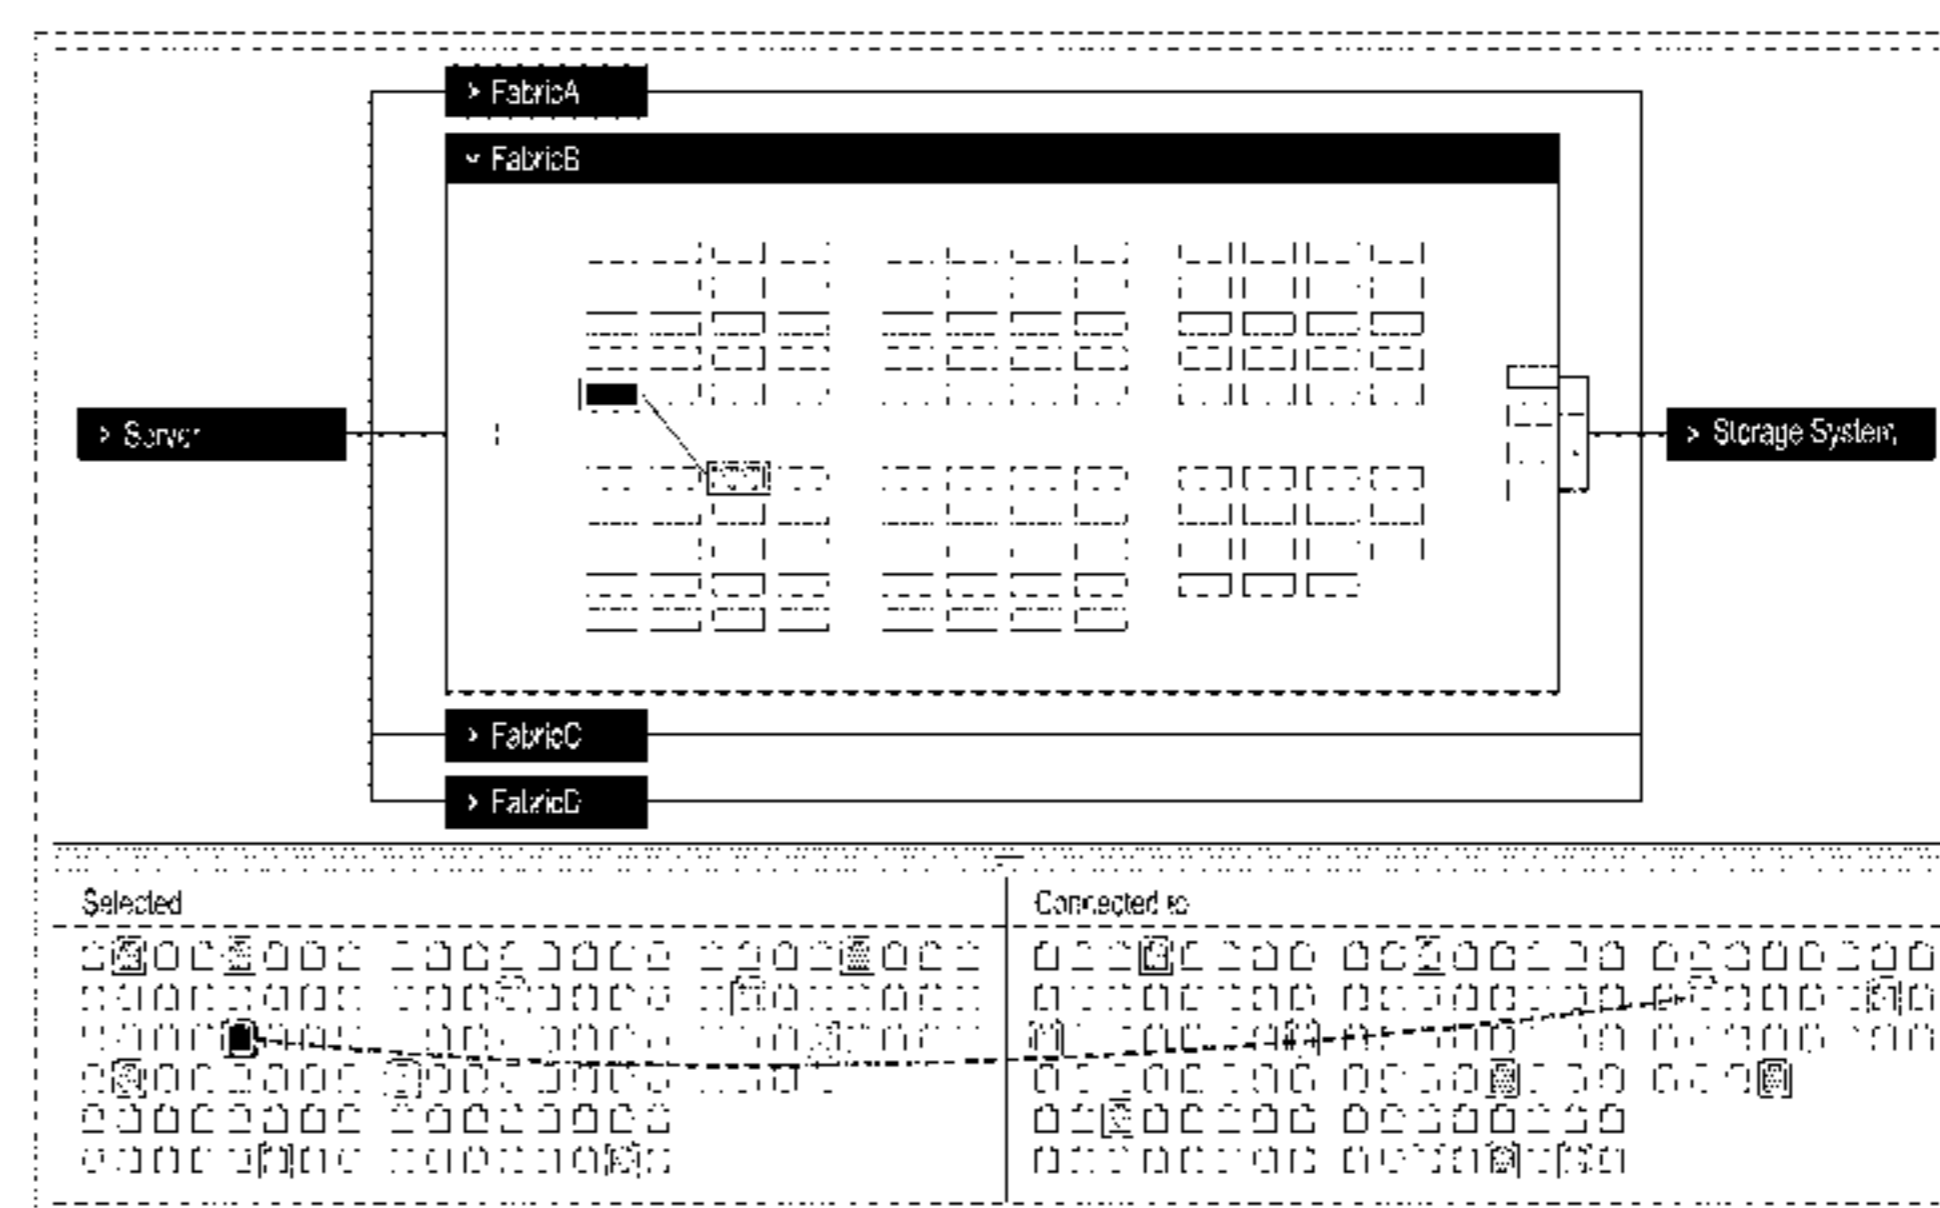

FIG. 2 is a second image thereof;

FIG. 3 is a third image thereof; and,

FIG. 4 is a fourth image thereof.

The broken lines in the Figures show portions of a display screen which form no part of the claimed design. The appearance of the images in the Figures sequentially transition between the images shown in FIGS. 1-4. The process or period in which one image transitions to another forms no part of the claimed design.
