(57) **CLAIM**

The ornamental design for a production inkjet printer screen with animated graphical user interface with slider, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a production inkjet printer screen with animated graphical user interface with slider in the first position of a sequence;
FIG. 2 is a front view of our design in the second position of a sequence;
FIG. 3 is a front view of our design in the third position of a sequence;
FIG. 4 is a front view of our design in the fourth position of a sequence;
FIG. 5 is a front view of our design in the fifth position of a sequence;
FIG. 6 is a front view of our design in the sixth position of a sequence; and,
FIG. 7 is a front view of our design in the seventh position of a sequence.
The broken lines in the drawings represent unclaimed environmental subject matter and form no part of the claimed design.
The appearance of the animated portions of the slider sequentially transition between the images shown in FIGS. 1-7. The process or period in which the image transitions to another forms no part of the claimed design.
