The appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1-13. The process or period in which one image transitions to another forms no part of the claimed design.

The broken line showing of the text, the icons, the remainder of the animated graphical user interface and the remainder of the display screen, illustrates portions of the display screen with animated graphical user interface, and forms no part of the claimed design. The broken line showing of an electronic device is for the purpose of illustrating environmental structure, and forms no part of the claimed design.
