FIG. 1 is the first image in a sequence for a display screen with animated graphical user interface showing my new design;

FIG. 2 is the second image thereof;

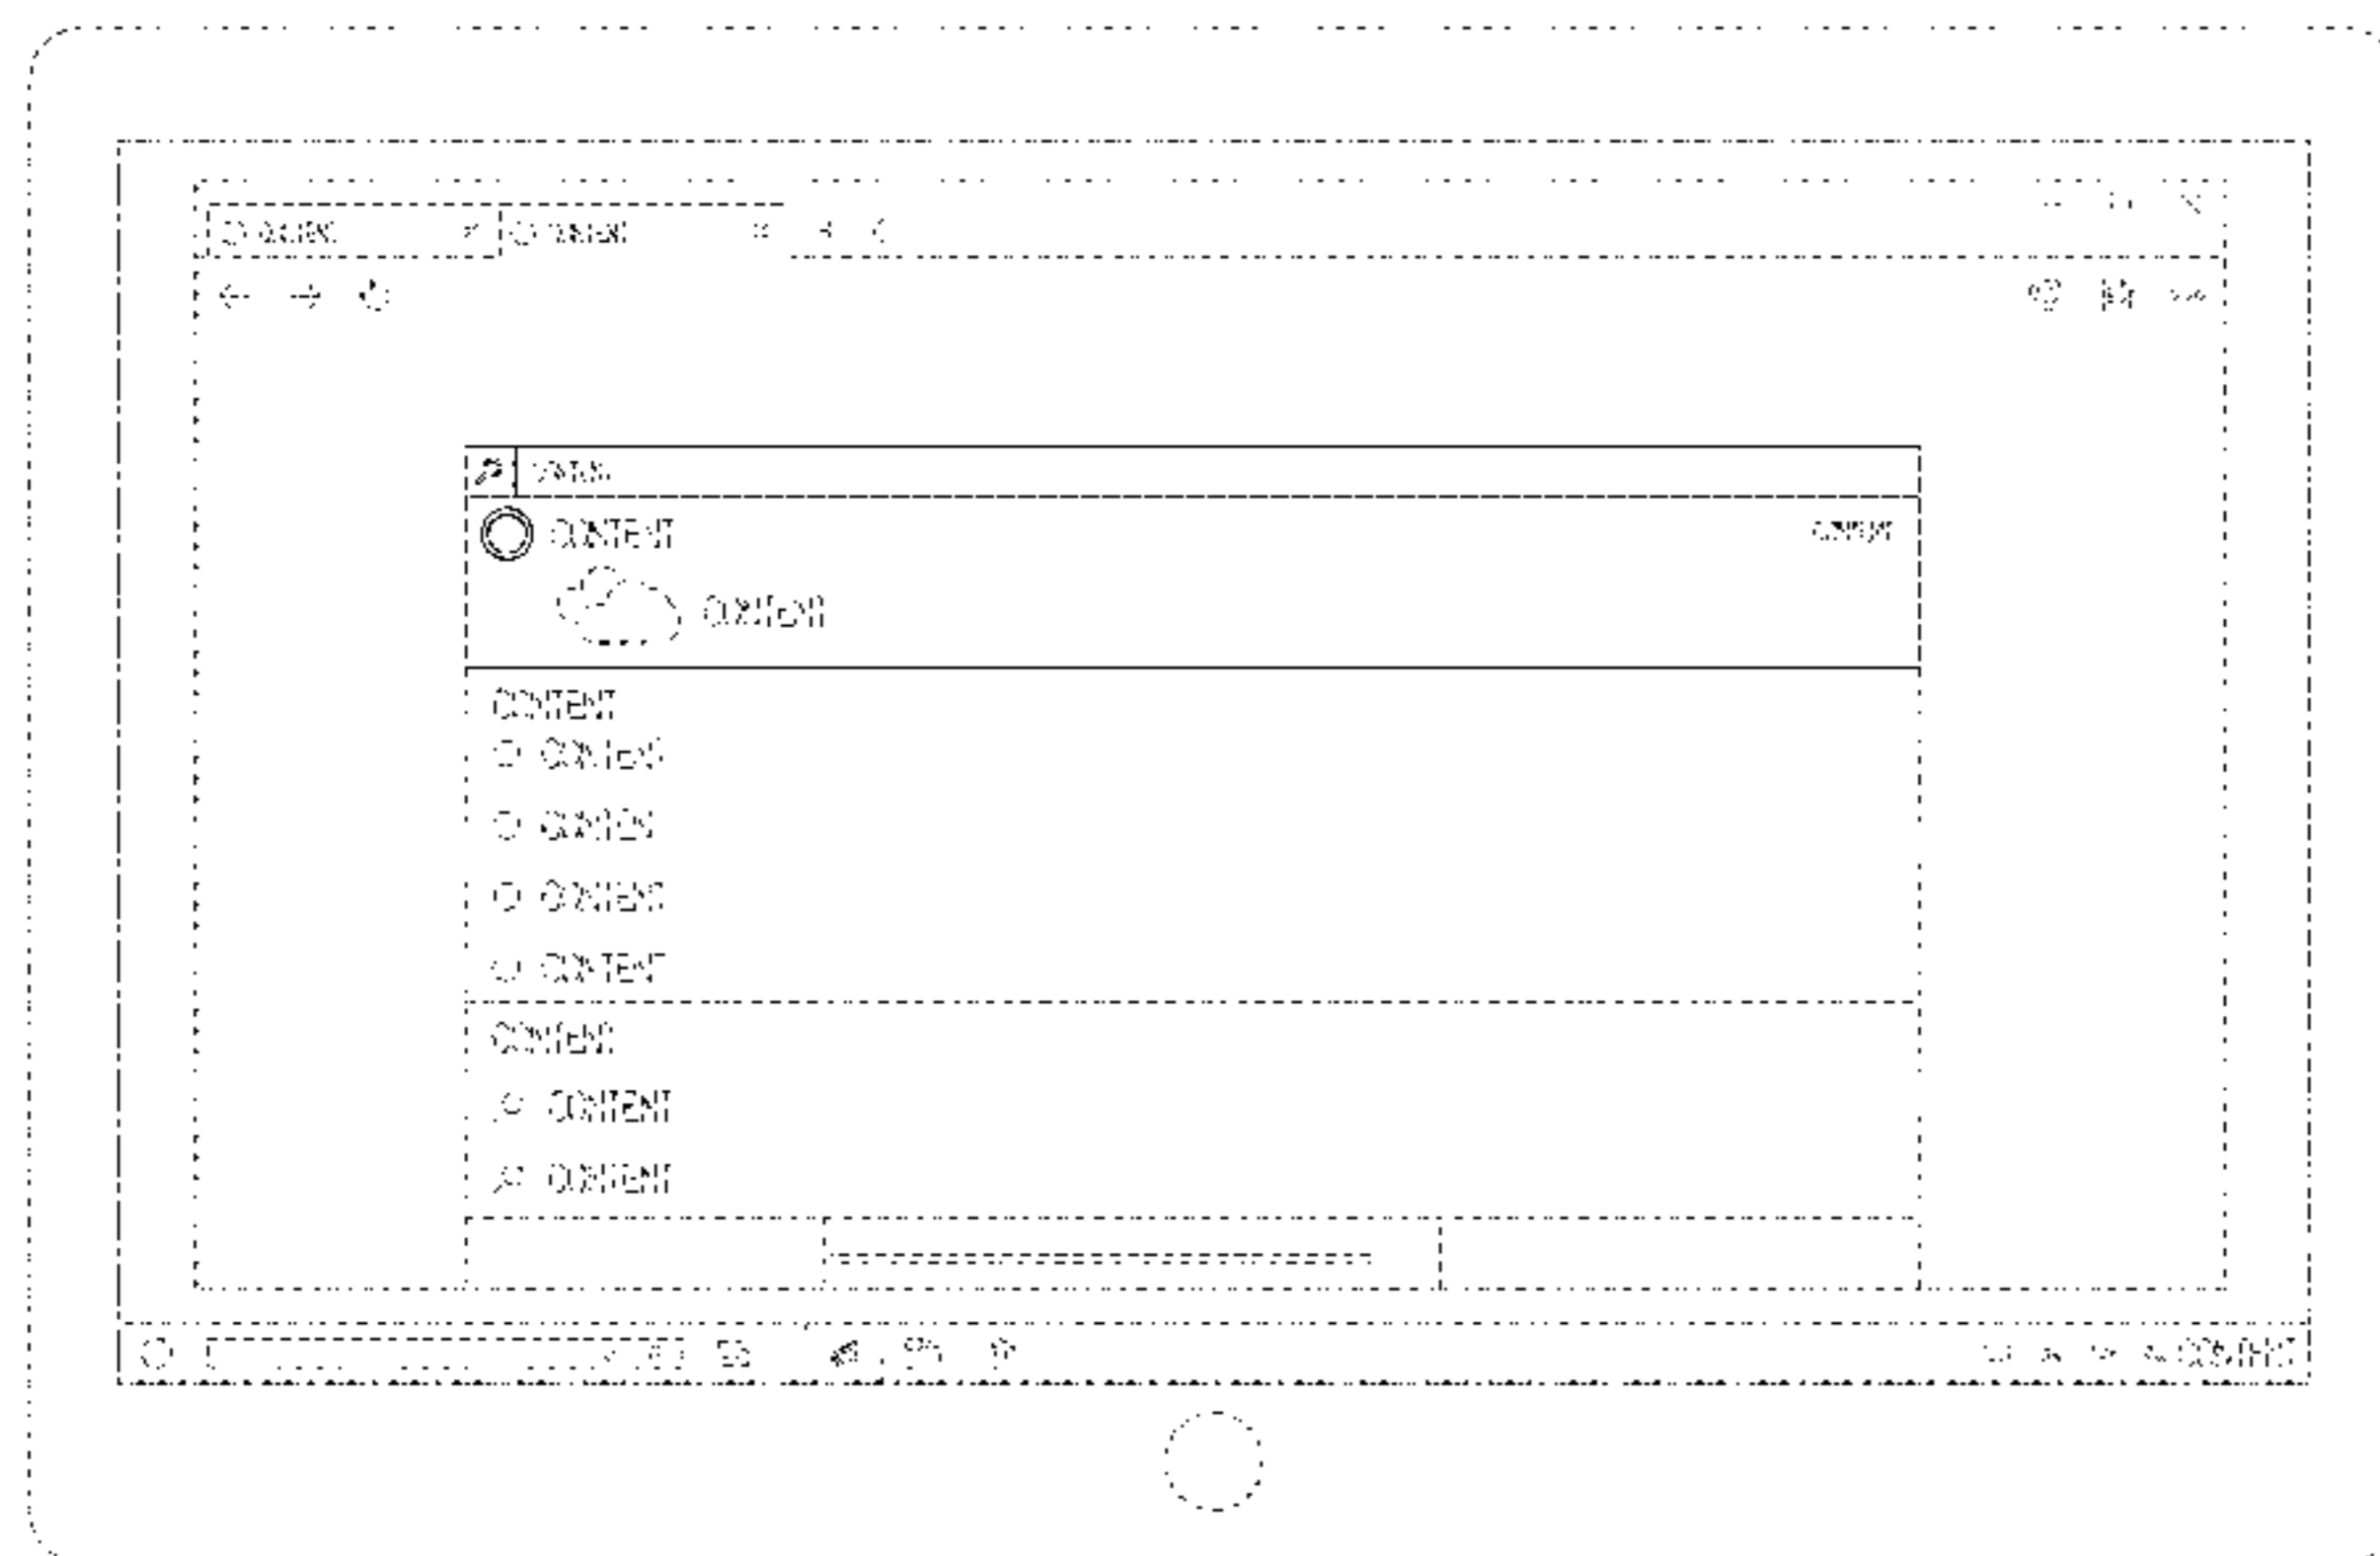

FIG. 3 is the third image thereof; and,

FIG. 4 is the fourth image thereof.

The appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1-4. The process or period in which one image transitions to another forms no part of the claimed design.

The even-length broken line showing of an electronic device illustrates environmental structure and forms no part of the claimed design. The remainder of the even-length broken lines illustrate portions of the graphical user interface and form no part of the claimed design. The uneven-length broken line illustrates a portion of the display screen and forms no part of the claimed design.
