(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a first image in a sequence for a display screen with animated graphical user interface; FIG. 2 is a second image thereof; and, FIG. 3 is a third image thereof.

The outermost broken line rectangle illustrates the perimeter of an electronic device. The remaining broken lines illustrate portions of a graphical user interface and, in the first and second figure, a hand as part of the environment of the article. The broken lines form no part of the claimed design. The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design.
