(57) **CLAIM**

The ornamental design for a 3D embossed non-woven fabric with rectangular pattern, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a 3D embossed non-woven fabric with rectangular pattern which is shown cut away on each of its four sides to indicate a symbolic border in length and width, it being understood that the surface pattern repeats uniformly throughout the length and width of the fabric sheet;

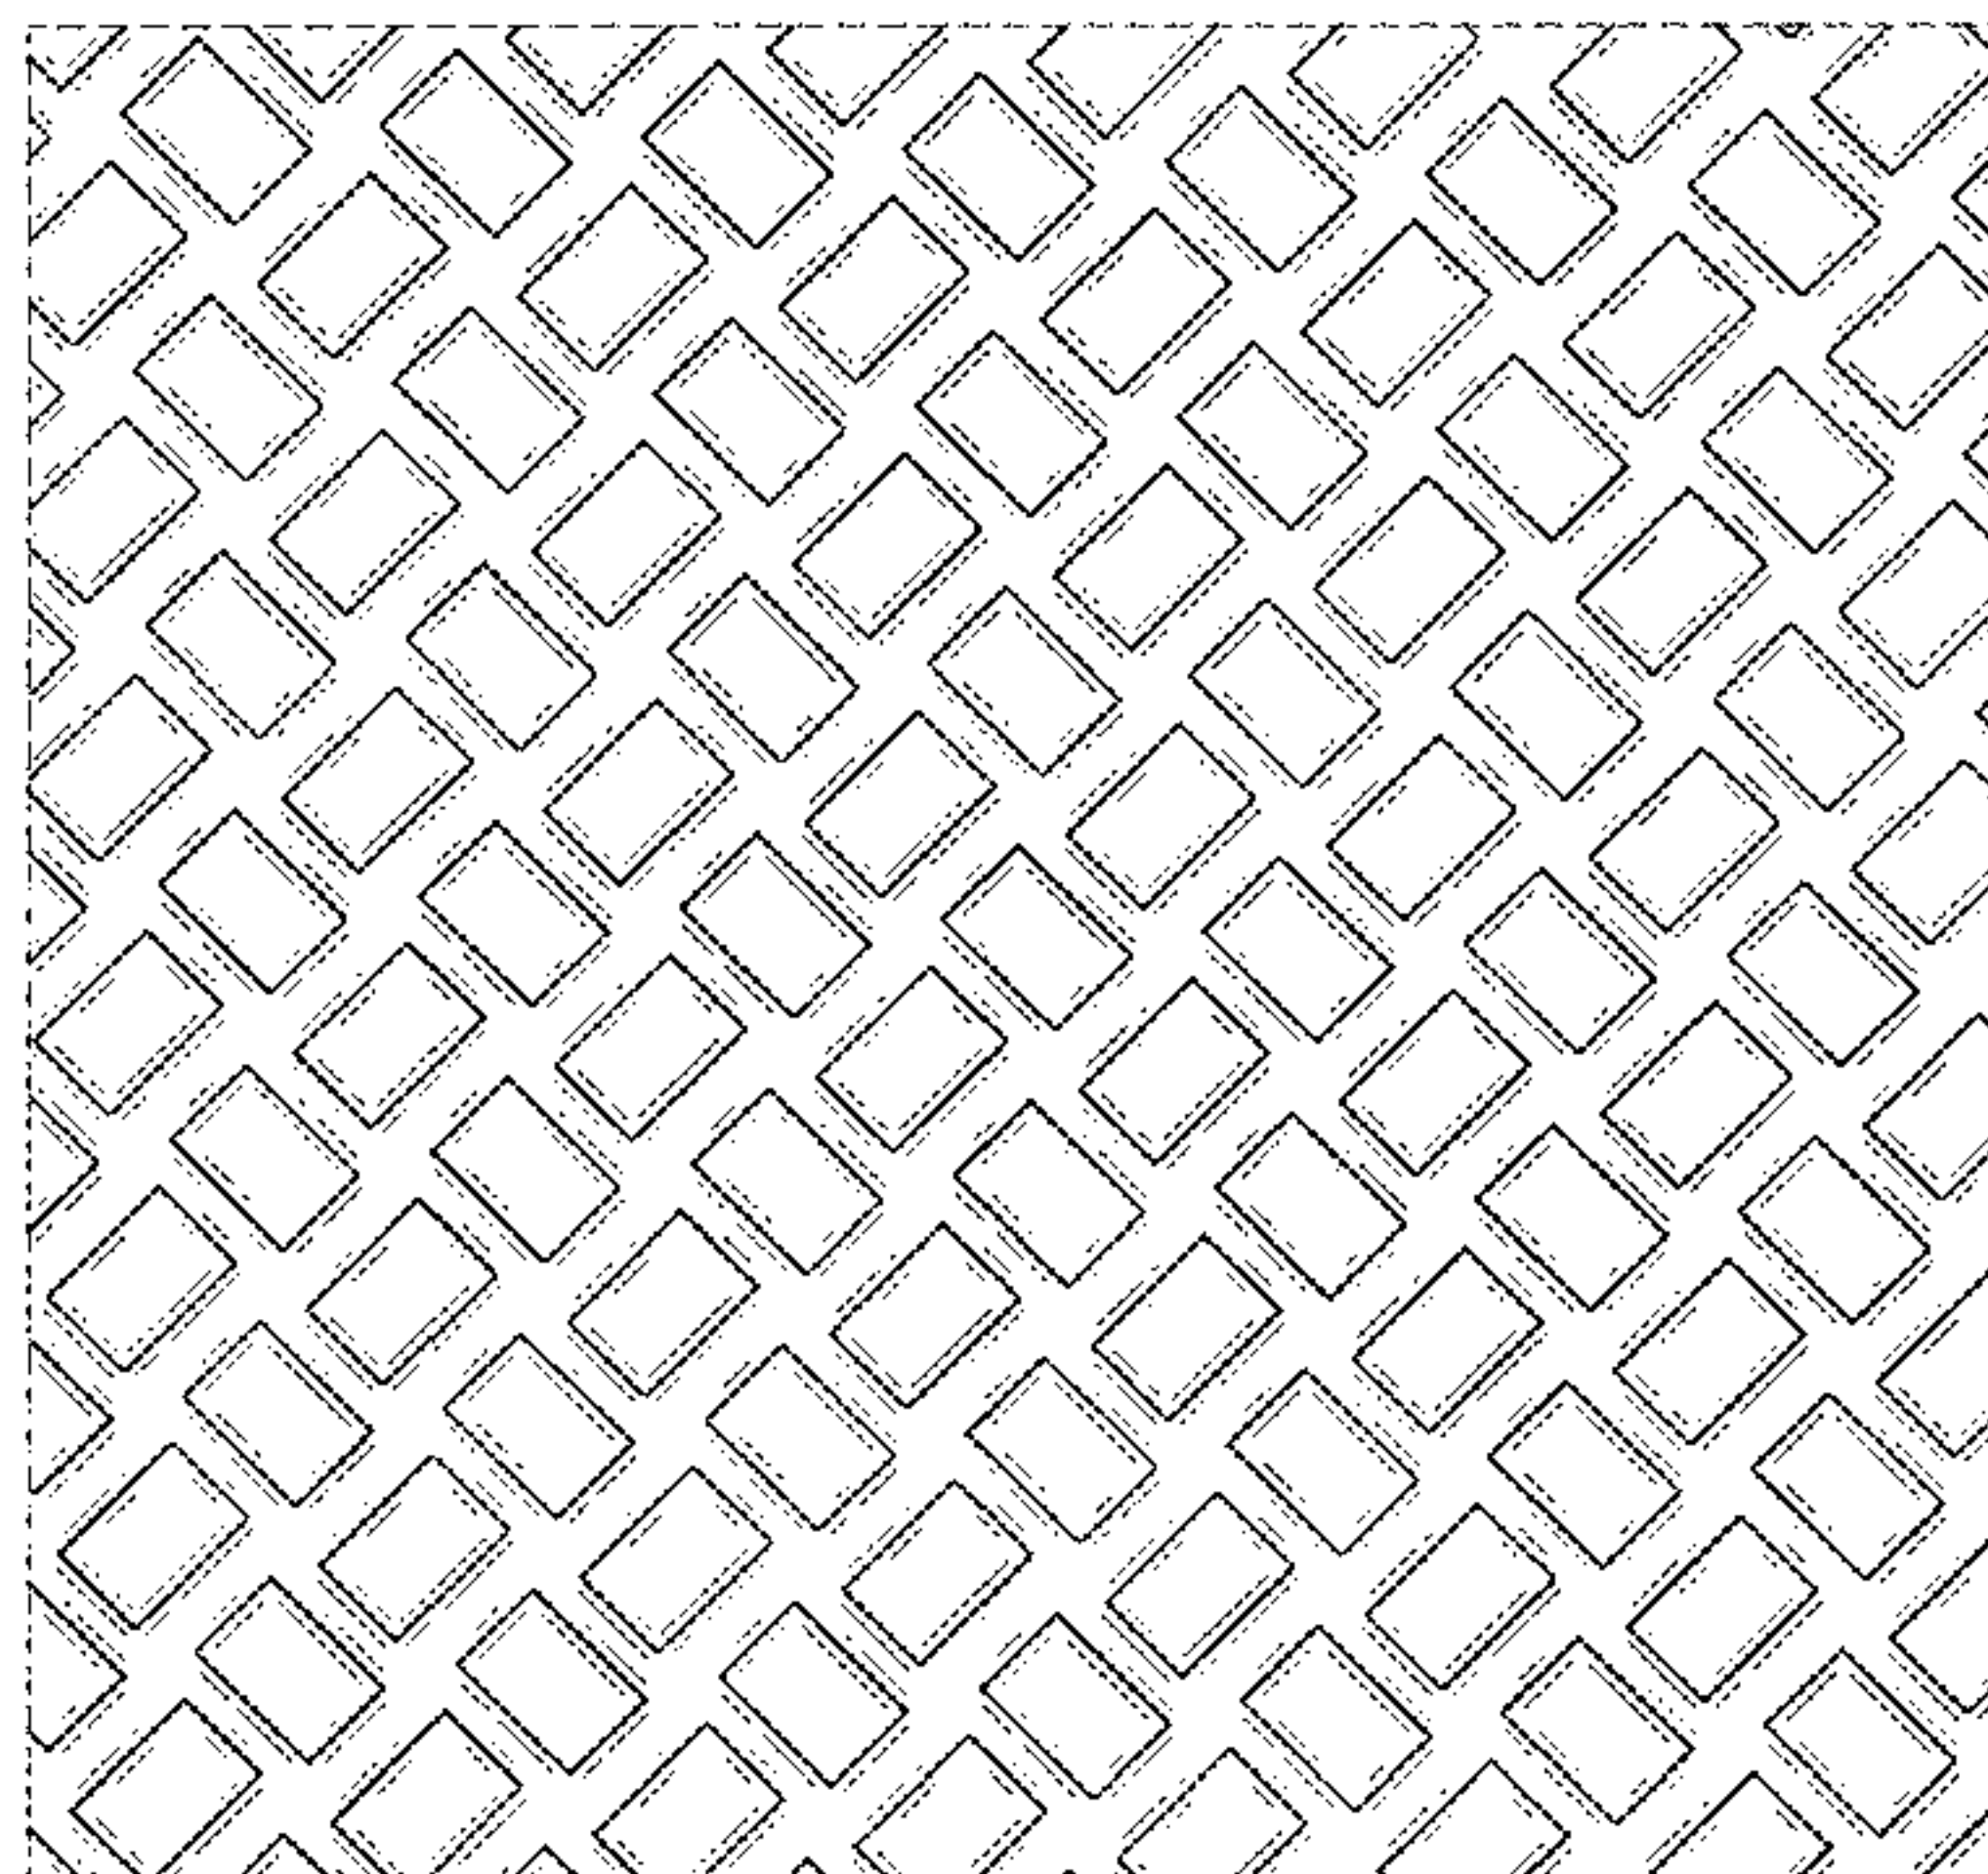

FIG. 2 is a reference view included to show the area from where the cross section is taken; and,

FIG. 3 is a partial sectional view thereof, taken along line 3-3 of FIG. 2.

The bottom view of the 3D embossed non-woven fabric with rectangular pattern is a similar image of the top plan view of FIG. 1, but with the raised portions being recessed and vice versa.

The broken lines surrounding the design represent the boundaries of the 3D embossed non-woven fabric with rectangular pattern and form no part thereof.

1 Claim, 2 Drawing Sheets
