(57) **CLAIM**
The ornamental design for a vehicle instrument with graphical user interface, as shown and described.

DESCRIPTION

The patent file contains at least one drawing executed in color. Copies of this patent with a color drawing will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a first image of a first embodiment of a vehicle instrument with graphical user interface as a graphical interface for vehicle cluster instrument;

FIG. 2 is a second image thereof;

FIG. 3 is a first image of a second embodiment of a vehicle instrument with graphical user interface as a graphical interface for vehicle cluster instrument;

FIG. 4 is a second image thereof;

FIG. 5 is a first image of a third embodiment of a vehicle instrument with graphical user interface as a graphical interface for vehicle cluster instrument;

FIG. 6 is a second image thereof;

FIG. 7 is a first image of a fourth embodiment of a vehicle instrument with graphical user interface as a graphical interface for vehicle cluster instrument;

FIG. 8 is a second image thereof;

FIG. 9 is a first image of a fifth embodiment of a vehicle instrument with graphical user interface as a graphical interface for vehicle cluster instrument;

FIG. 10 is a second image thereof;

FIG. 11 is a first image of a sixth embodiment of a vehicle instrument with graphical user interface as a graphical interface for vehicle cluster instrument; and,

FIG. 12 is a second image thereof.

The subject matter of this patent or application includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design. The broken line showing of text elements form no part of the claimed design. The broken line showing of a display screen or portion thereof forms no part of the claimed design.
