FIG. 1 is a perspective view of a load control device according to a first embodiment of my new design.

FIG. 2 is a front view thereof.

FIG. 3 is a left side view thereof.

FIG. 4 is a right side view thereof.

FIG. 5 is a top view thereof.

FIG. 6 is a bottom view thereof.

FIG. 7 is a perspective view of a load control device according to a second embodiment of my new design.

FIG. 8 is a front view thereof, the left side, right side, top, and bottom views, respectively, of the second embodiment being identical to the left side, right side, top, and bottom views of the first embodiment.

FIG. 9 is a perspective view of the load control device showing an alternate environment of the first embodiment.

FIG. 10 is a front view thereof, all other views being identical to the first embodiment.

FIG. 11 is a perspective view of a load control device showing an alternate environment of the second; and,

FIG. 12 is a front view thereof, all other views being identical to the second embodiment.

The rear views form no part of the design and are omitted. The broken lines showing portions of the load control device are for the purpose of illustrating environmental structure and form no part of the claimed design.
