(57) **CLAIM**

The ornamental design for a portion of a display panel with a graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a portion of a display panel with a graphical user interface showing a first image of my new design.

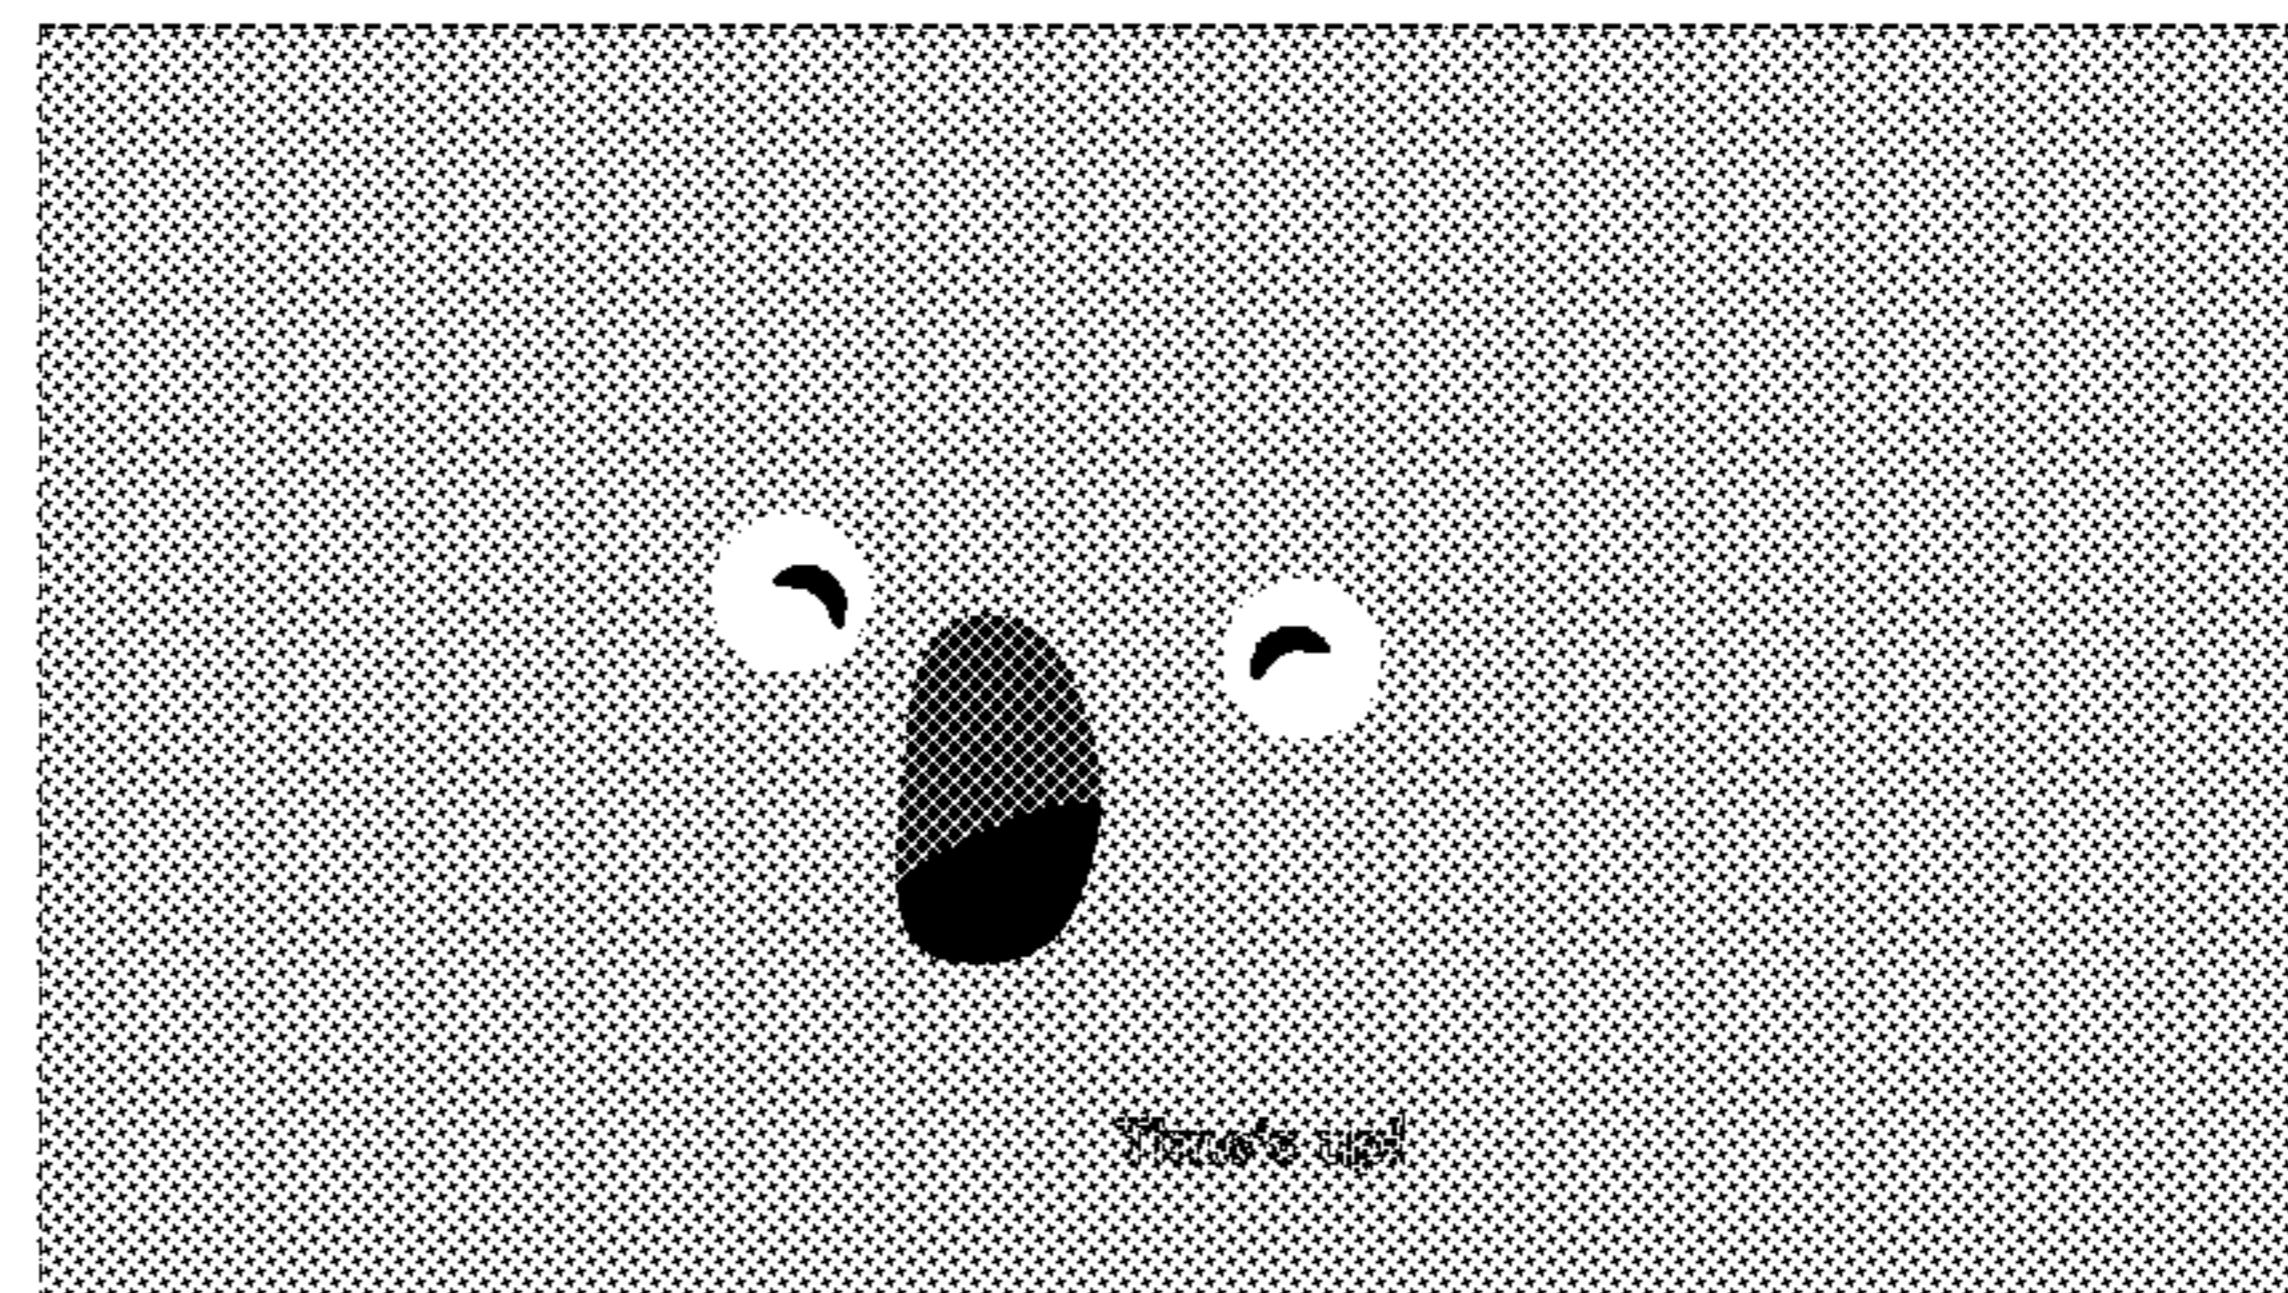

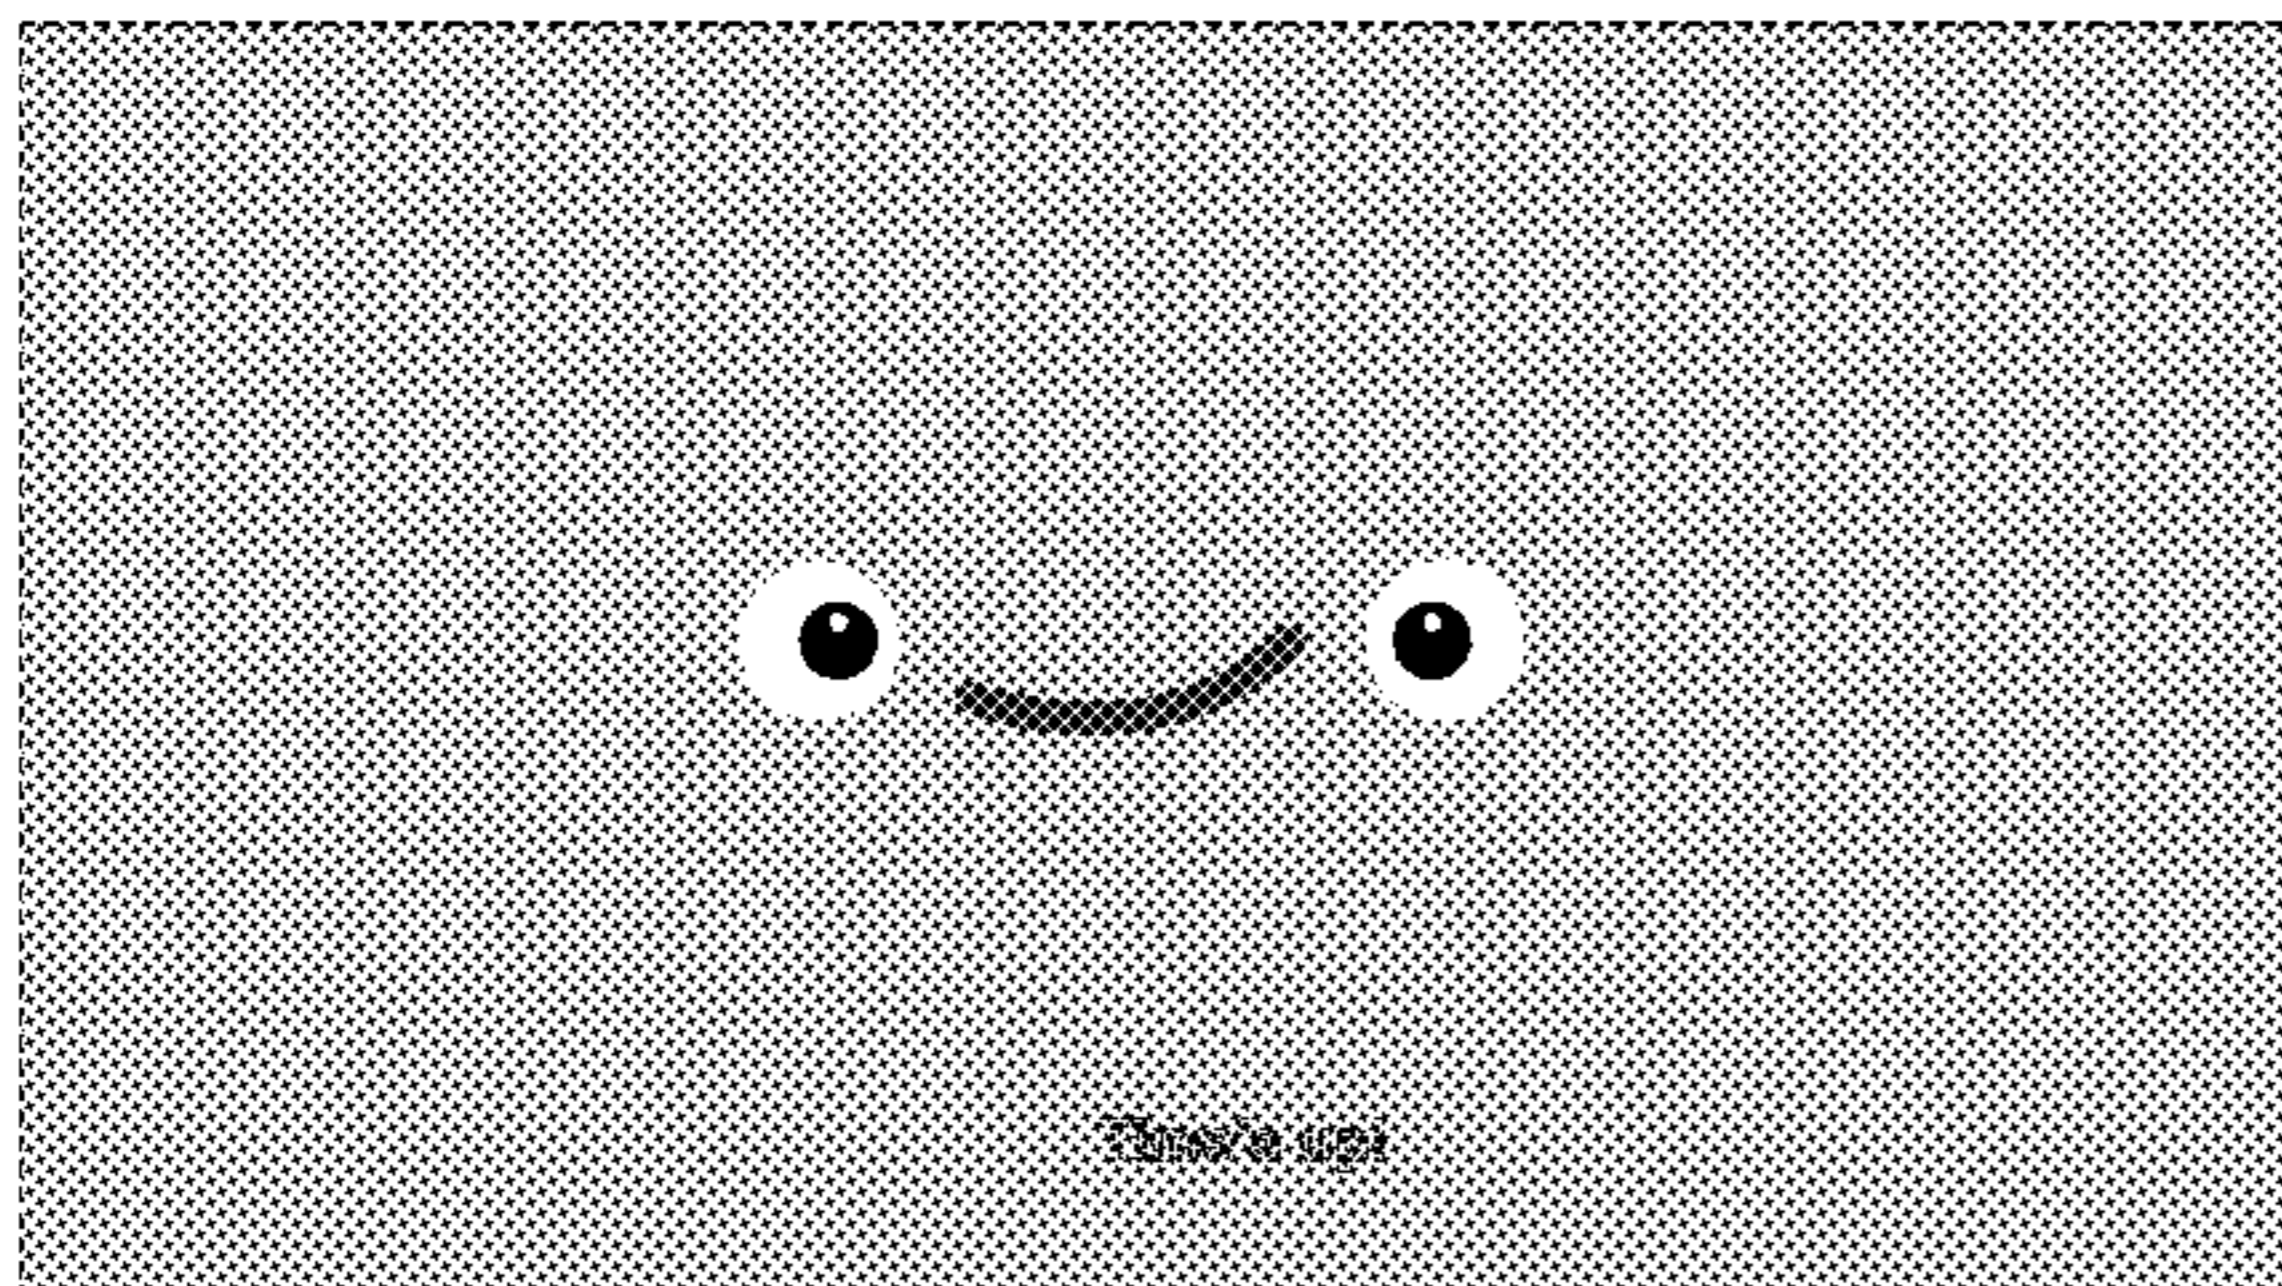

FIG. 2 is a front view of a portion of a display panel with a graphical user interface showing a second image of my new design; and,

FIG. 3 is a front view of a portion of a display panel with a graphical user interface showing a third image of my new design.

The broken lines including the showing of a portion of a display panel of a communications terminal surrounding the illustrated graphical user interface and portions of the graphical user interface are included for the purpose of illustrating environment and form no part of the claimed design. The stippling is used to show relative degrees of shading throughout this interface.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design.
