(57) **CLAIM**  
The ornamental design for a surgical dissector, substantially as shown and described.

**DESCRIPTION**

FIG. 1 is an upper plan view of an embodiment of a surgical dissector.  
FIG. 2 is a perspective view of the surgical dissector of FIG. 1.  
FIG. 3 is a side elevation view of the surgical dissector of FIGS. 1-2.  
FIG. 4 is a lower plan view of the surgical dissector of FIGS. 1-3.  
FIG. 5 is a front elevation view of the surgical dissector of FIGS. 1-4.  
FIG. 6 is a rear elevation view of the surgical dissector of FIGS. 1-5.  
FIG. 7 is a perspective view of the surgical dissector of FIGS. 1-6.  
FIG. 8 is a perspective view of the surgical dissector of FIGS. 1-7, shown from the side opposite to that shown in FIG. 7.  
FIG. 9 is another perspective view of the surgical dissector of FIGS. 1-8; and,  
FIG. 10 is yet another perspective view of the surgical dissector of FIGS. 1-9.  
The portions of the drawings shown in broken lines form no part of the claimed design. The broken lines extending along the sides of the surgical dissector depicted in the drawings, along with the broken lines forming an ellipse along the proximal end of the surgical dissector, comprise seam lines formed by the material making up the surgical dissector and, like the other broken lines, form no part of the claimed design.
