(57) **CLAIM**

The ornamental design for a case for portable electronic communications device, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a case for portable electronic communications device showing our new design; FIG. 2 is a back perspective view of the case for portable electronic communications device;

FIG. 3 is a front view of the case for portable electronic communications device;

FIG. 4 is a left side view of the case for portable electronic communications device;

FIG. 5 is a right side view of the case for portable electronic communications device;

FIG. 6 is a top view of the case for portable electronic communications device;

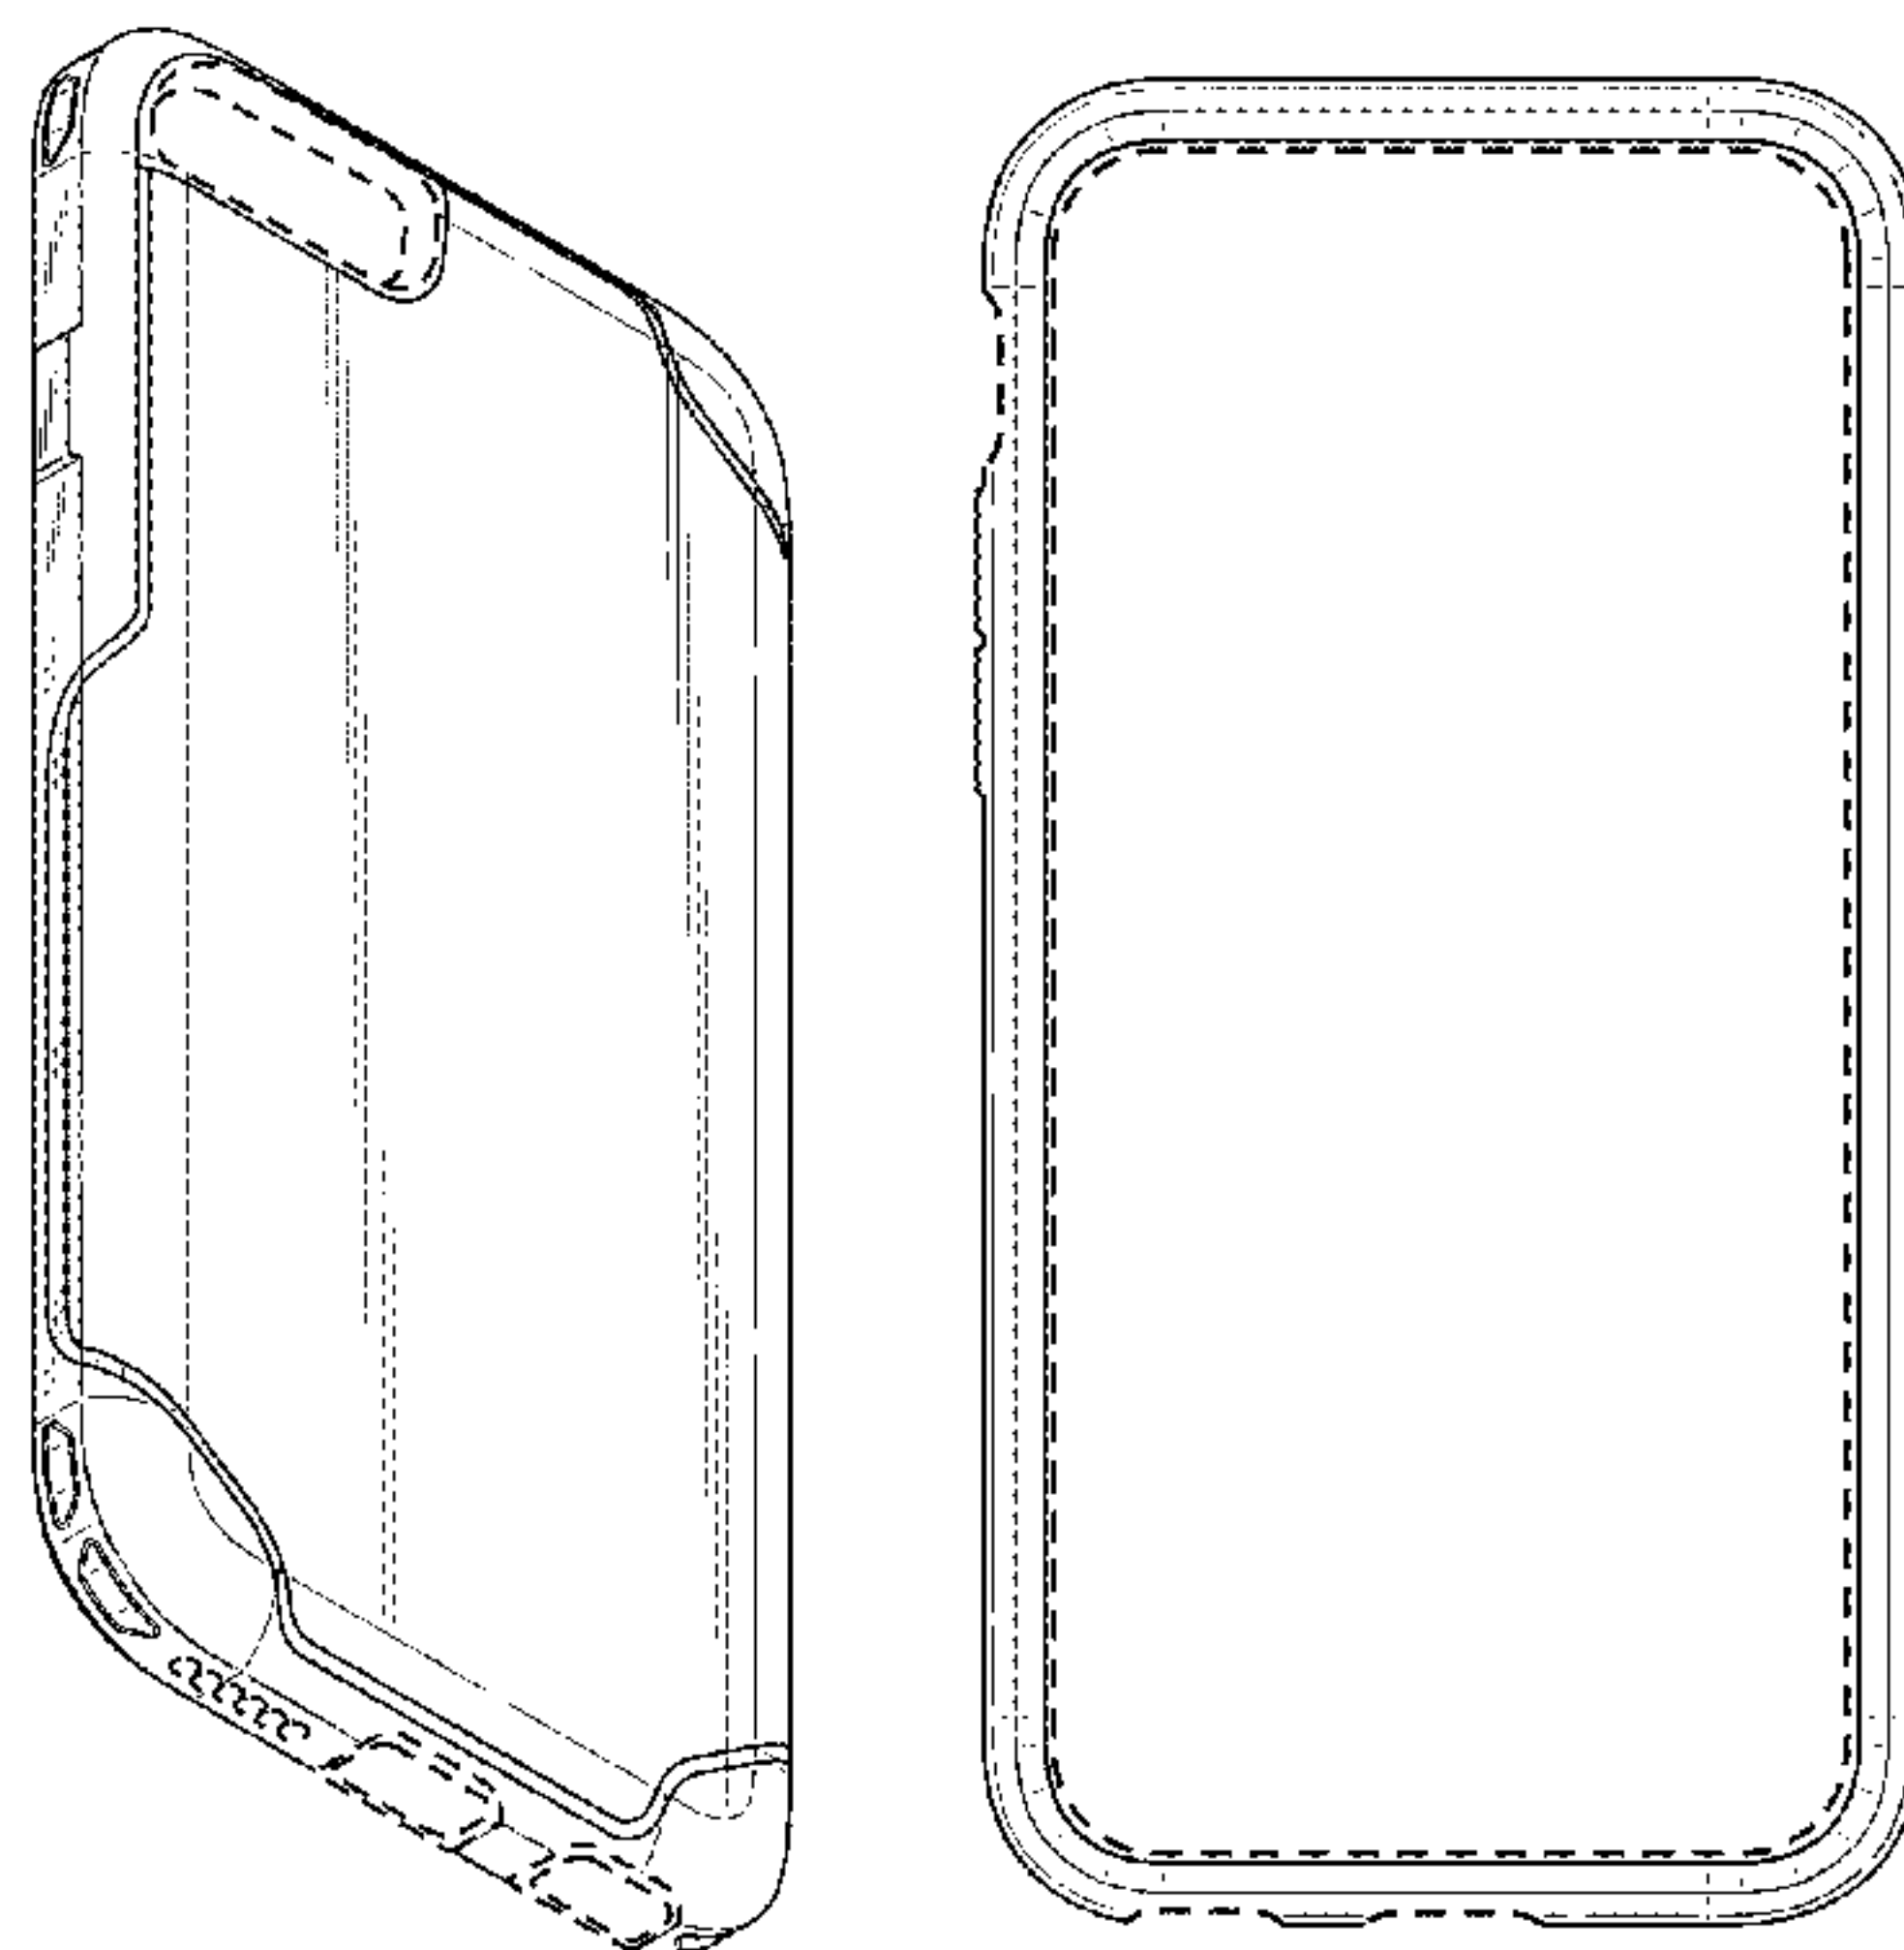

FIG. 7 is a bottom view of the case for portable electronic communications device;

FIG. 8 is a back view of the case for portable electronic communications device; and,

FIG. 9 is an enlarged fragmentary view taken from FIG. 1 to more clearly disclose the appearance and configuration of a representative feature that is repeated around the periphery of the case.

The circular broken line in FIGS. 1 and 9 delineates a portion of the claimed design that is shown on an enlarged scale in FIG. 9. All other broken lines depict portions of the case for portable electronic communications device that form no part of the claimed design.
