(57) **CLAIM**

We claim the ornamental design for a game display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

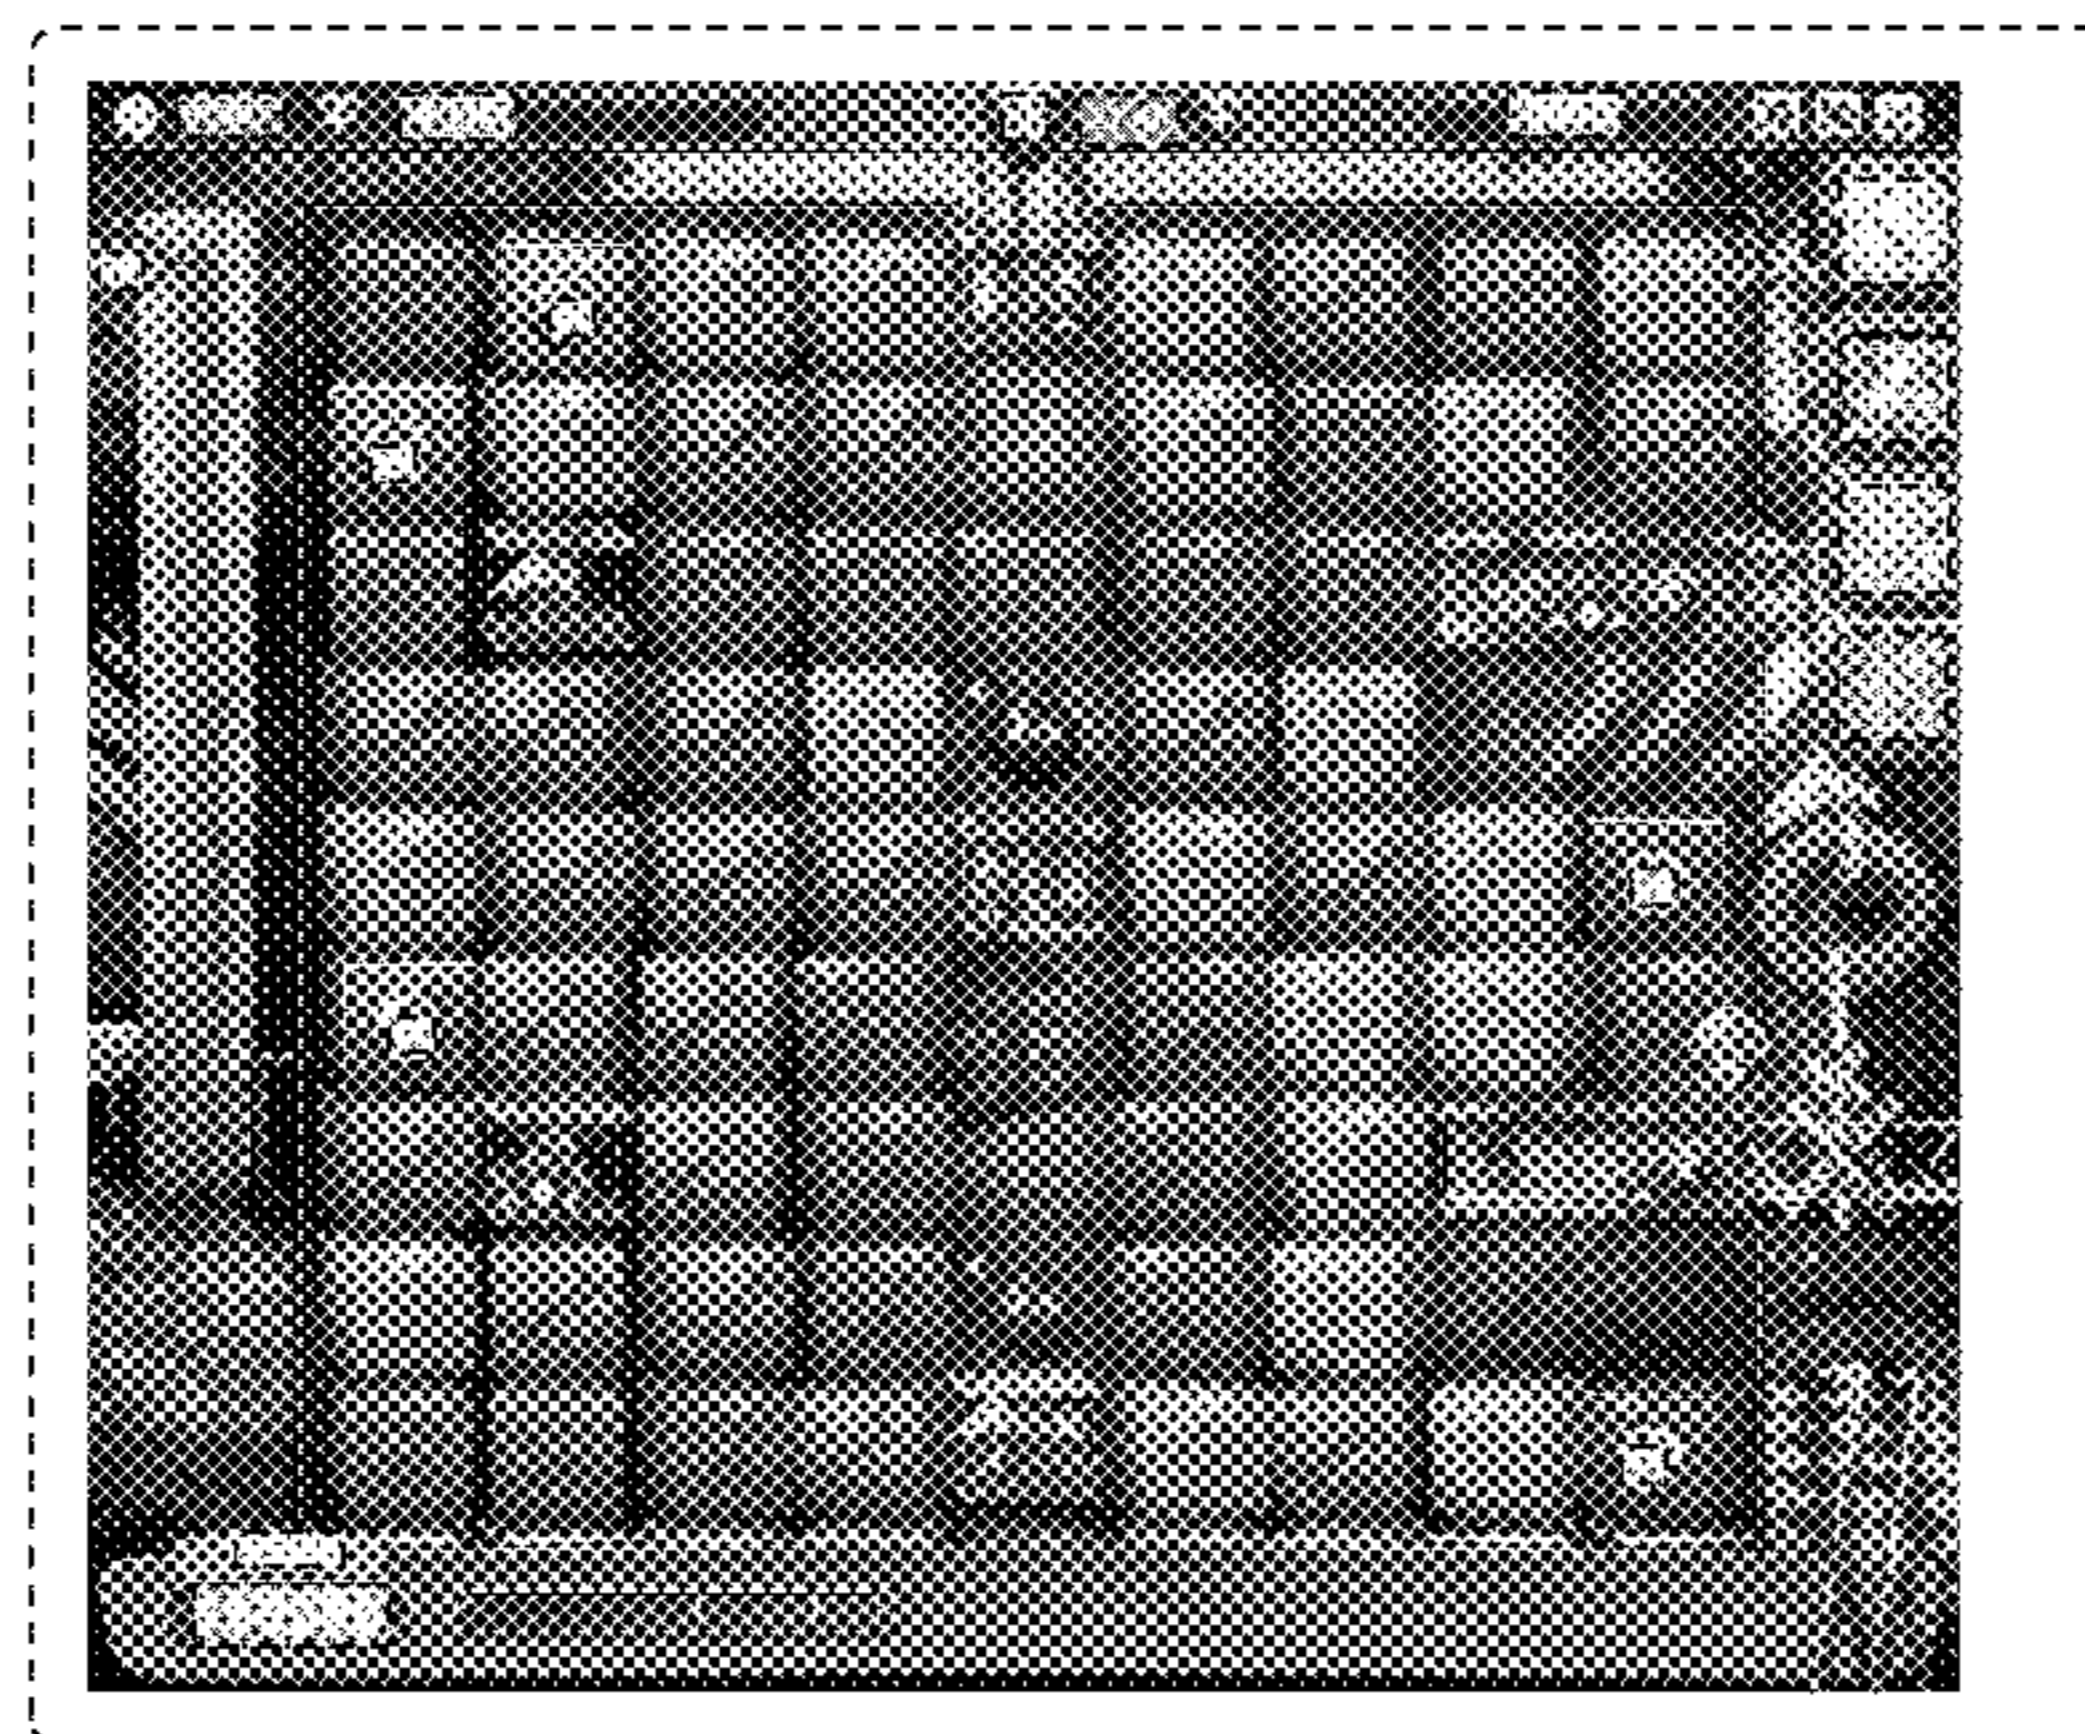

FIG. 1 is a front view of a game display screen or portion thereof with graphical user interface showing our new design in color; and,

FIG. 2 is a front view of a game display screen or portion thereof with graphical user interface showing our new design in grayscale.

The outermost perimeter of broken lines depicts the game display screen or portion thereof, and form no part of the claimed design.

The internal broken line boxes showing portions of the game display screen with graphical user interface represent unclaimed regions or portions within a claimed design where neither the broken line boundaries nor the "faded" content within the broken lines forms a part of the claimed design.
