(57) **CLAIM**

The ornamental design for a display screen with graphical user interface of menu for an office multifunction machine, as shown and described.

DESCRIPTION

The patent or application file contains a least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a display screen with a first portion of an animated sequence of a menu for an office multifunction machine showing the new design; and

FIG. 2 is a display screen with a second portion in the animated sequence of the menu;

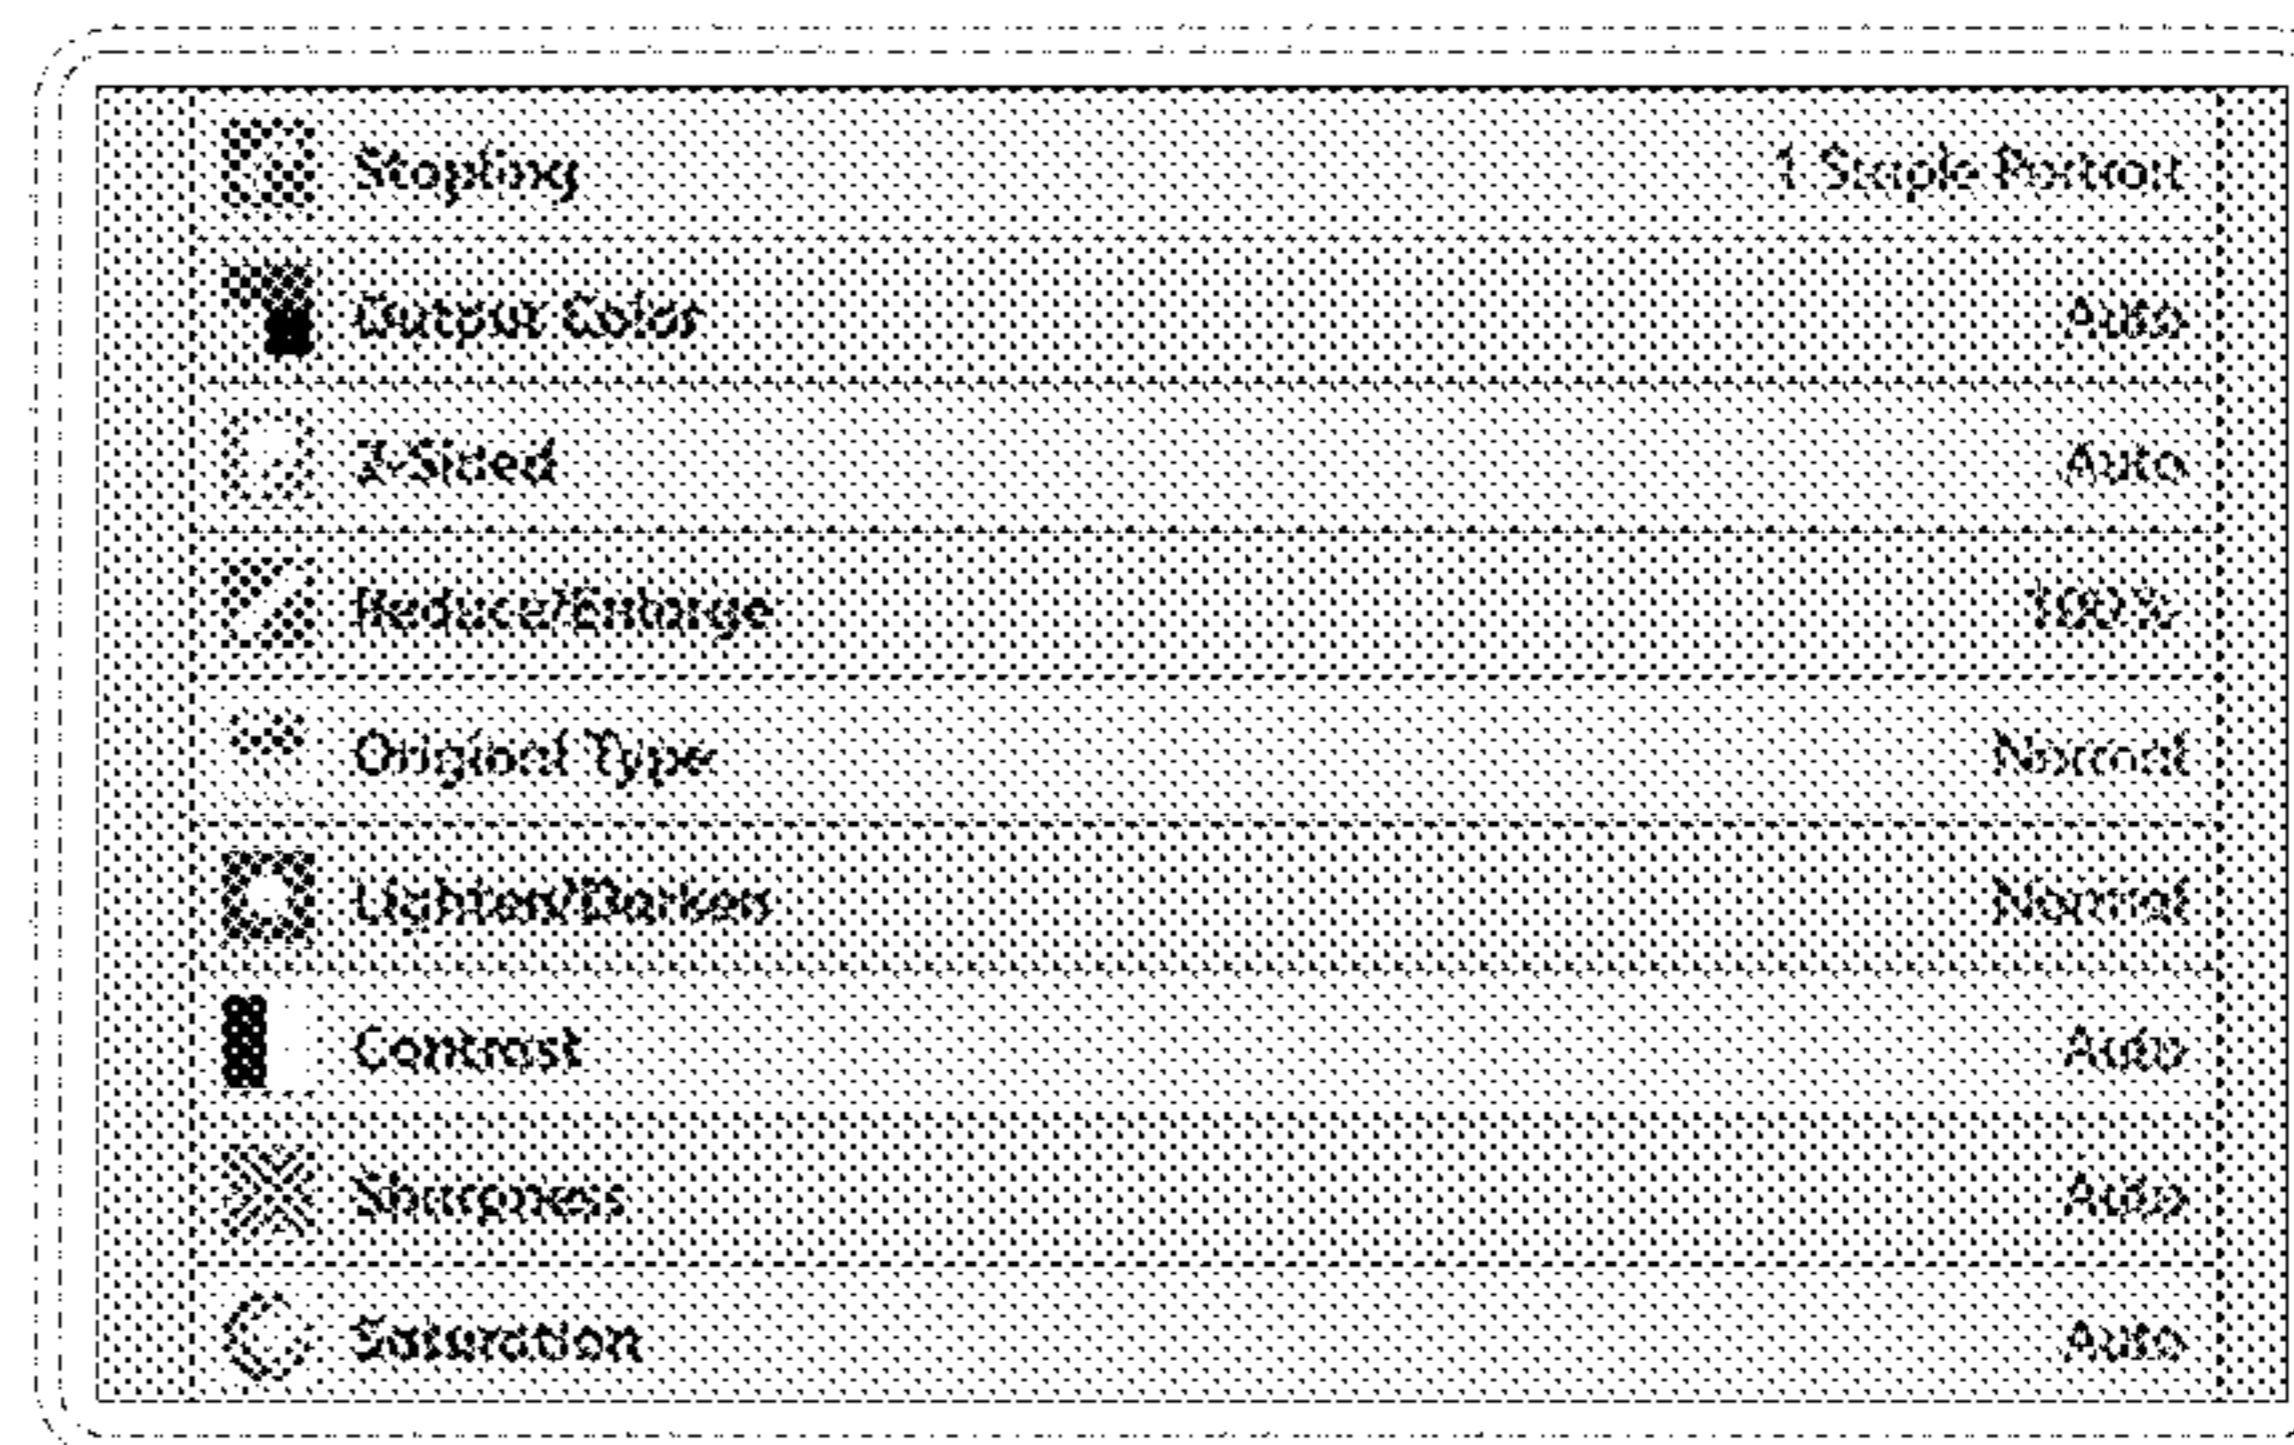

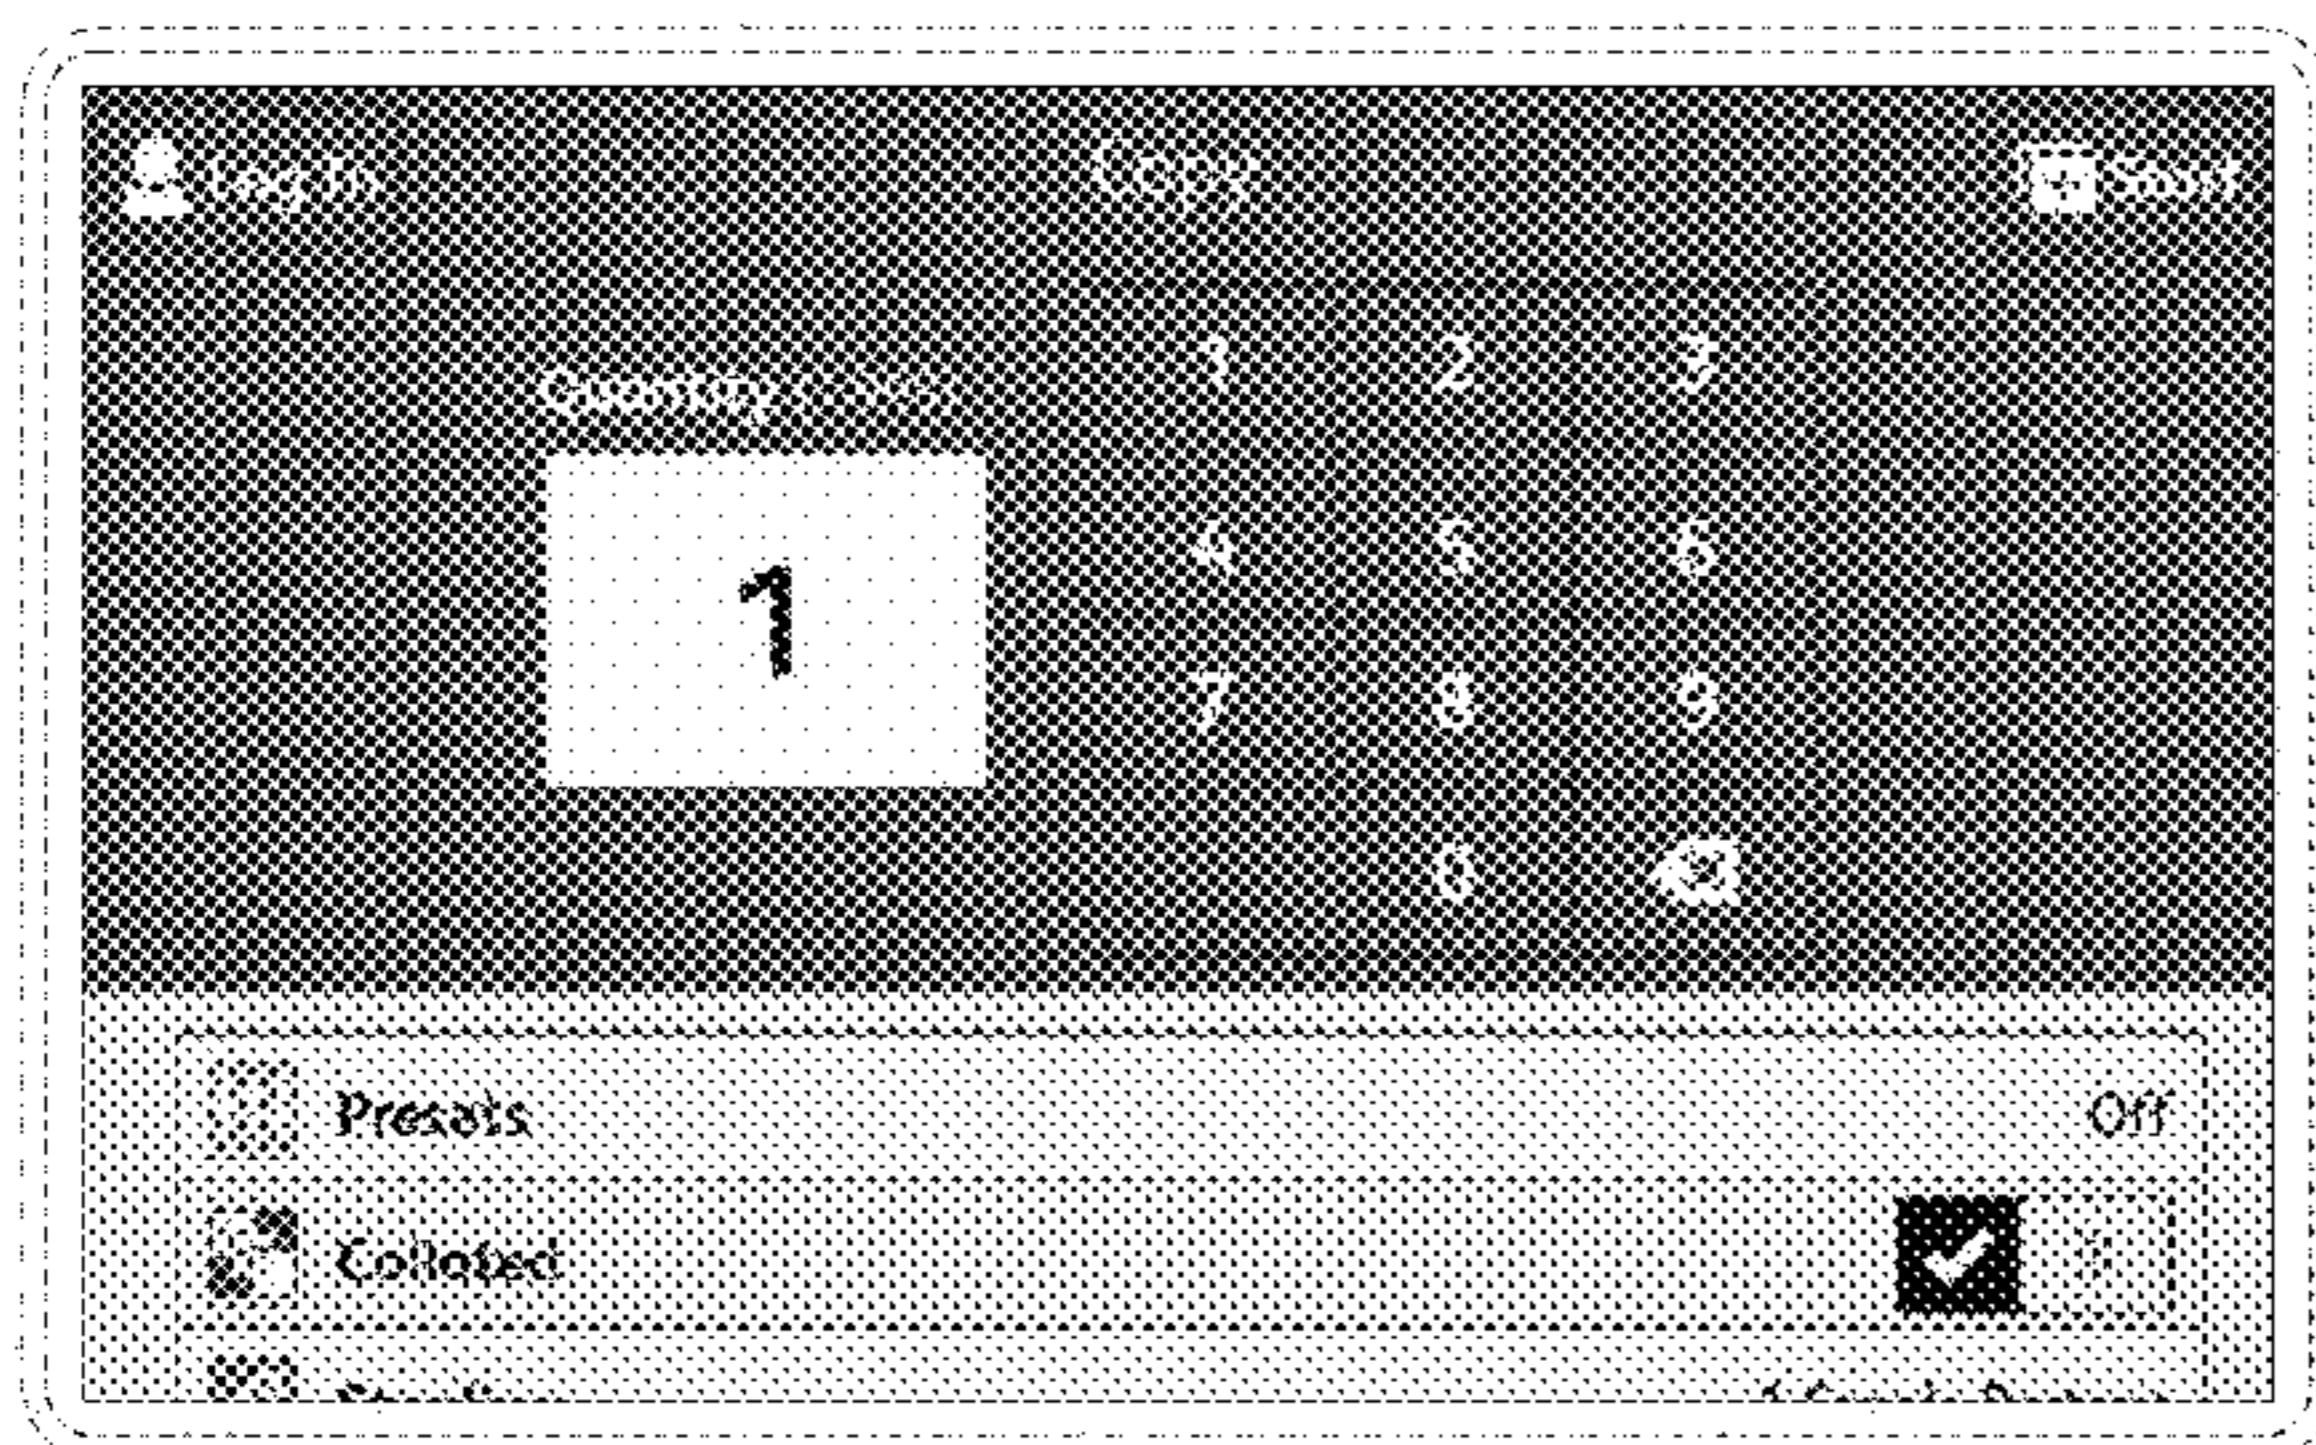

FIG. 3 is a display screen with a third portion in the animated sequence of the menu; and,

FIG. 4 is a display screen with a fourth portion in the animated sequence of the menu.

The display screen features shown in broken lines in the drawings depict environmental subject matter only and form no part of the claimed design.

The appearance of the animated portions of the menu sequentially transitions between the images shown in FIGS. 1-4. The process or period in which the image transitions to another forms no part of the claimed design.
