FIG. 1 is a front view of an electrically driven pump according to the present application;
FIG. 2 is a rear view of the electrically driven pump according to the present application;
FIG. 3 is a left view of the electrically driven pump according to the present application;
FIG. 4 is a right view of the electrically driven pump according to the present application;
FIG. 5 is a top view of the electrically driven pump according to the present application;
FIG. 6 is a bottom view of the electrically driven pump according to the present application; and,
FIG. 7 is a perspective view of the electrically driven pump according to the present application.

The broken lines are for illustrative purposes and represent environmental structure and unclaimed portions of the invention and therefore form no part of the claimed design.
