(57) **CLAIM**
The ornamental design for a computer display for a server maintenance tool with graphical user interface, as shown and described.

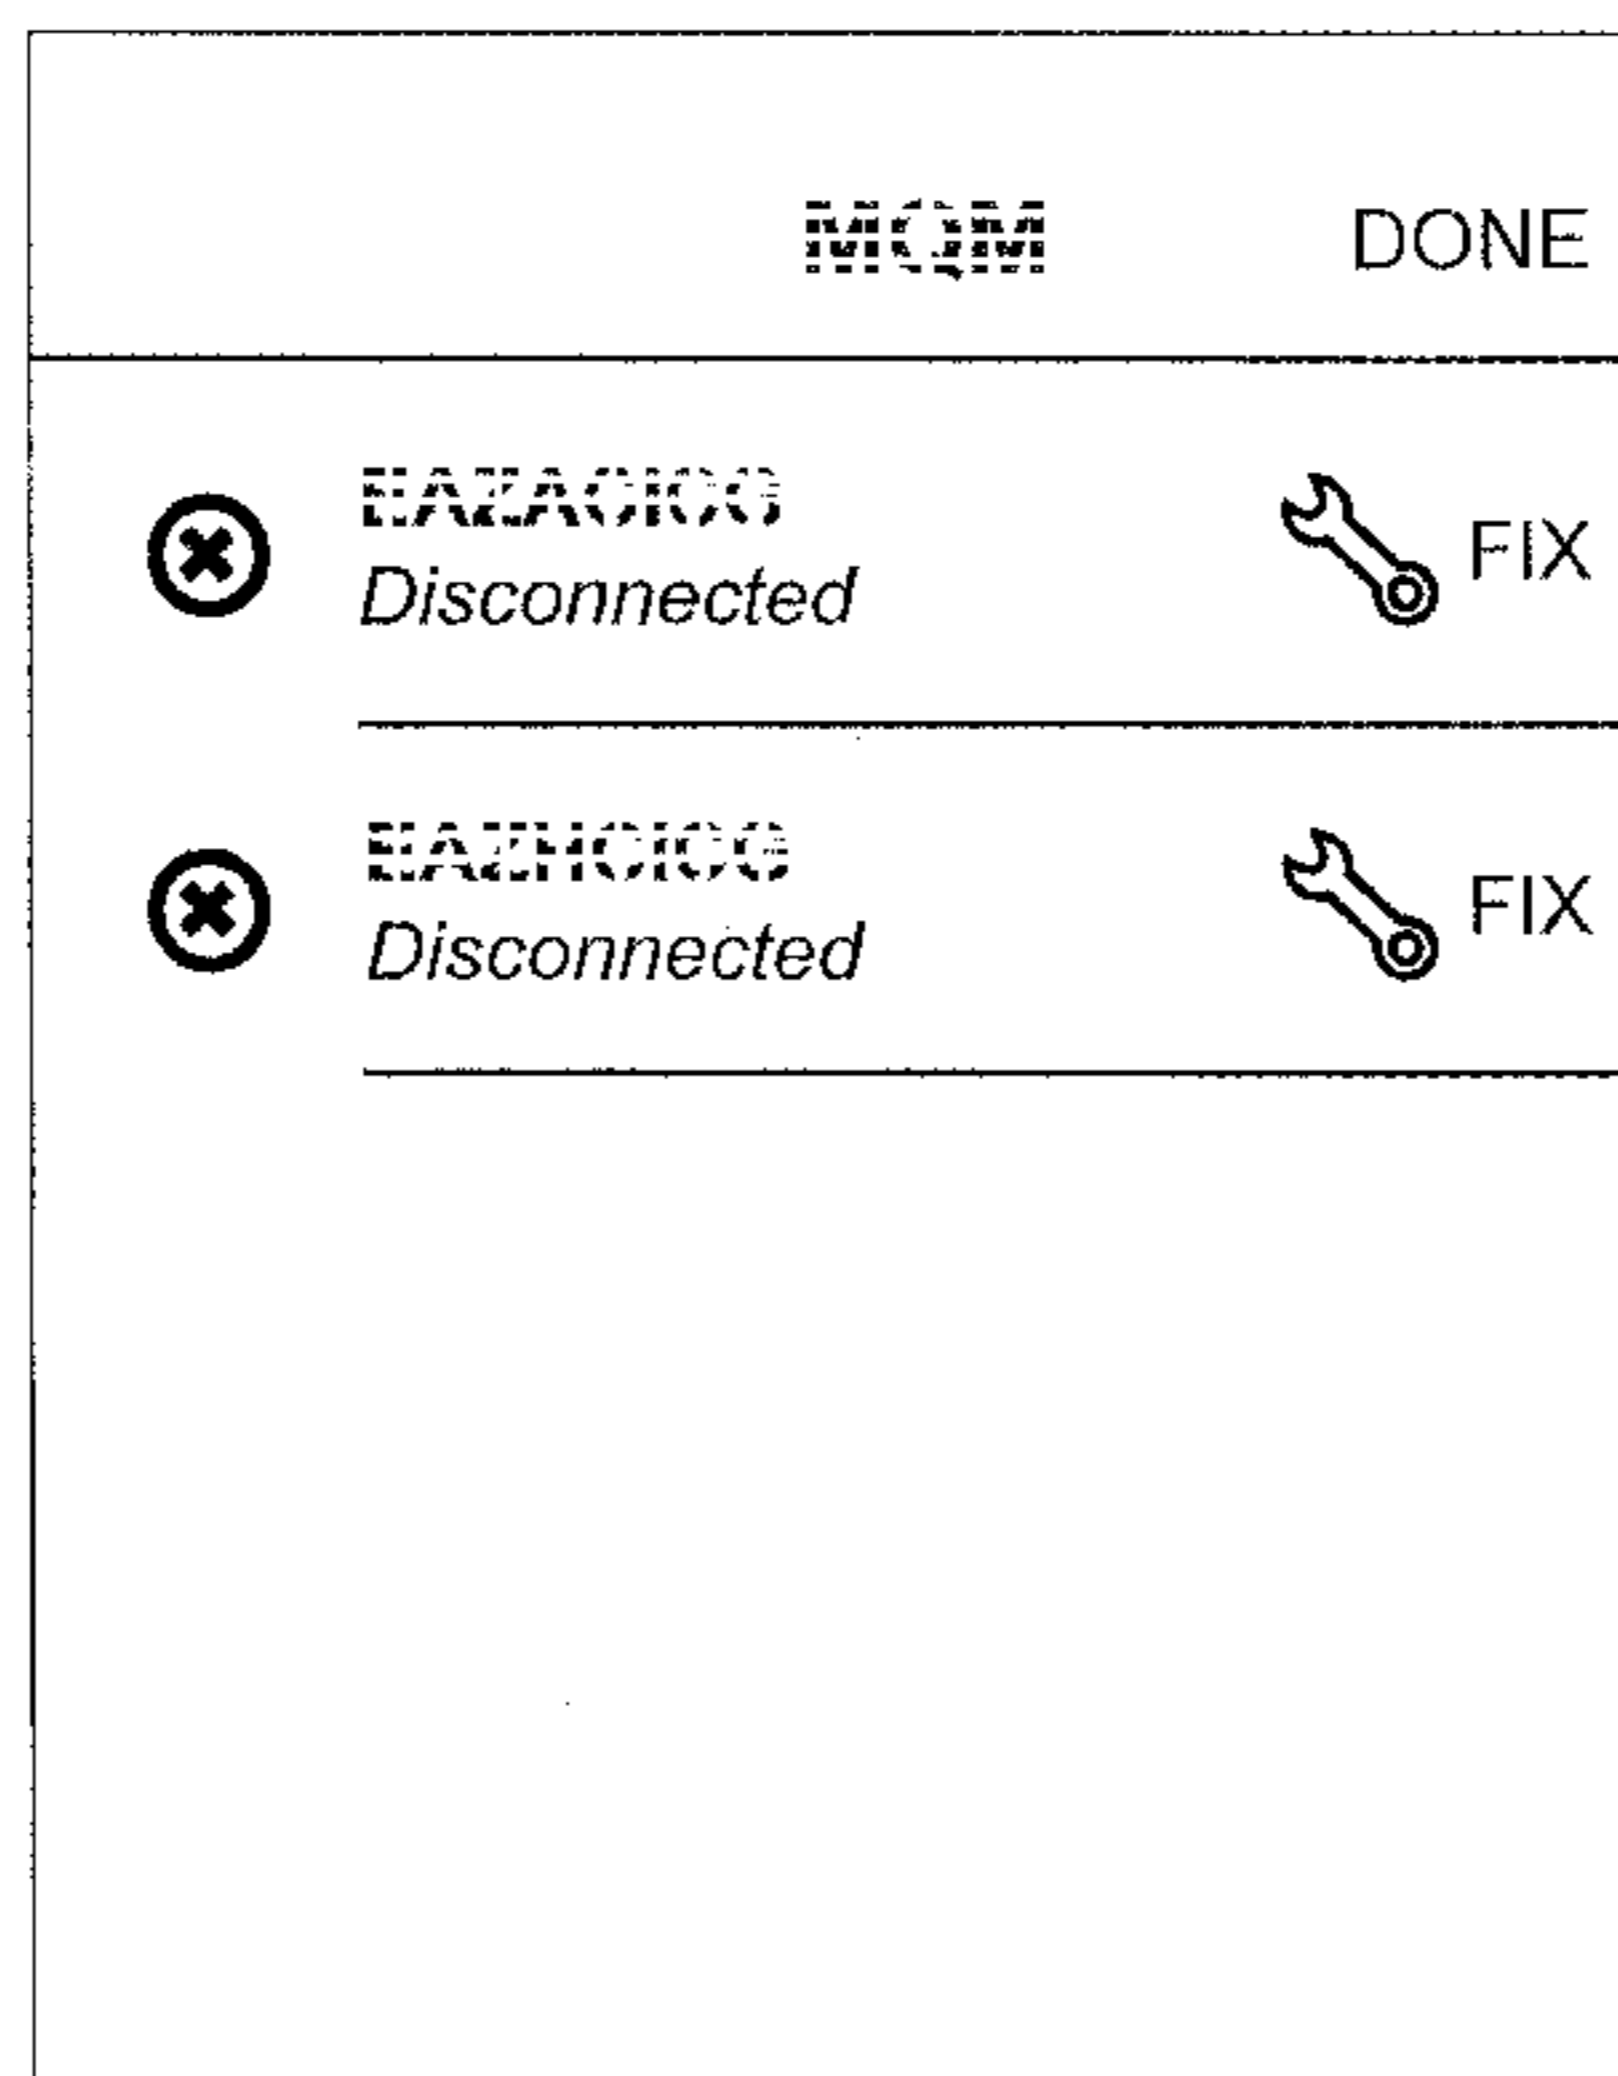

DESCRIPTION

FIG. 1 is a front view of a computer display for a server maintenance tool with graphical user interface; and, FIG. 2 is a front view of a second embodiment of a computer display for a server maintenance tool with graphical user interface. The broken line showing of the text is for the purpose of illustrating environment and forms no part of the claimed design. The perimeters of the underlying computer display and graphical user interface are understood to be flush.
