(57) **CLAIM**

The ornamental design for a display panel or screen with an animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a display panel or screen with an animated graphical user interface showing our new design; and,

FIG. 2 is a second image thereof.

The broken line showing of the display panel or screen and portions of the graphical user interface illustrate portions of the display panel or screen with an animated graphical user interface that form no part of the claimed design.

The appearance of the image transitions sequentially between the images shown in FIGS. 1-2. The process or period in which an image transitions to another forms no part of the claimed design. The broken lines in the figures represent portions of the display panel or screen with graphical user interface that form no part of the claimed design.
