(57) **CLAIM**  
The ornamental design for a touch panel for scanner with graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a first image from a touch panel for a scanner with a graphical user interface showing our new design;  
FIG. 2 is an enlarged view of a first image of the graphical user interface from FIG. 1;  
FIG. 3 is a second image thereof; and,  
FIG. 4 is a third image thereof.  
The broken line showing of a scanner illustrates environment, and the broken lines forming the touch panel display, as well as portions of the graphical user interface illustrate portions of the article. None of the broken lines form part of the claimed design.  
The appearance of the graphical user interface transitions sequentially among the images shown in FIGS. 2-4. The process or period in which one image transitions to another forms no part of the claimed design.

**1 Claim, 3 Drawing Sheets**
