See application file for complete search history.

FIG. 1 is a front view of a first image of a display screen of a multimedia terminal with animated graphical user interface showing our new design:

FIG. 2 is a front view of a second image thereof;

FIG. 3 is a front view of a third image thereof;

FIG. 4 is a front view of a fourth image thereof; and,

FIG. 5 is a front view of a fifth image thereof.

The outermost broken line showing of the display screen of a multimedia terminal with animated graphical user interface is included for the purpose of illustrating the article and forms no part of the claimed design. The broken lines within the display screen show portions of the graphical user interface and form no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-5. The process or period in which one image transitions to another image forms no part of the claimed design.
