(57) **CLAIM**

The ornamental design for a set of mirrored blinds, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of the set of mirrored blinds showing a first embodiment of my new design, the back being a mirror image;

FIG. 2 is a top view thereof, the bottom being a mirror image;

FIG. 3 is a left side elevational view of a single blind in the set of mirrored blinds;

FIG. 4 is a right side elevational view of a single blind in the set of mirrored blinds;

FIG. 5 is an enlarged top view of a single blind in the set of mirrored blinds;

FIG. 6 is a top view of the first embodiment of the set of mirrored blinds shown in a position of use, the bottom being a mirror image;

FIG. 7 is a front view of the first embodiment shown in a position of use, the back is a mirror image;

FIG. 8 is a front elevational view of the set of mirrored blinds shown in a position of use showing a second embodiment of my new design, the second embodiment being arranged horizontally, the back being a mirror image; and, FIG. 9 is a left side elevational view of the second embodiment shown in a position of use, the right side being a mirror image.

The oblique shading lines depict the mirrored appearance of the design. The supporting members of the set of mirrored blinds, drawn in long dash-short dash-short dash-long dash broken line in FIGS. 6-9, are environmental subject matter that forms no part of the claimed design. The long dash-short dash broken lines indicate a boundary that forms no part of the claimed design.

1 Claim, 5 Drawing Sheets
