(57) **CLAIM**

The ornamental design for an office machine screen with segmented control buttons graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of the first image in a sequence for an office machine screen with toggle switch graphical user interface, showing our new design; FIG. 2 is a detail view of FIG. 1, showing a front view of a second image thereof; FIG. 3 is a detail view of FIG. 1, showing a front view of a third image thereof; FIG. 4 is a detail view of FIG. 1, showing a front view of a fourth image thereof; and, FIG. 5 is a detail view of FIG. 1, showing a front view of a fifth image thereof.

The broken line showing of portions of the graphical user interface are included for the purpose of illustrating environmental structure and portions of the article and form no part of the claimed design. The perimeters of the portion of the underlying portion of a display screen and the graphical user interface are understood to be flush.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-5. The process or period in which one image transitions to another image forms no part of the claimed design.

1 Claim, 2 Drawing Sheets
