(57) **CLAIM**

The ornamental design for a portable welding power supply with detachable wire feeder, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of the assembled portable welding power supply with detachable wire feeder of the present invention showing our new design; FIG. 2 is a rear perspective view thereof; FIG. 3 is a front elevational view thereof; FIG. 4 is a left side elevational view thereof; FIG. 5 is a rear elevational view thereof; FIG. 6 is a right side elevational view thereof; FIG. 7 is a top plan view thereof; FIG. 8 is a bottom plan view thereof; FIG. 9 is an exploded front perspective view depicting the portable welding power supply with detachable wire feeder mechanism of the present invention with the wire feeder detached from the portable welding power supply; and, FIG. 10 is an exploded rear perspective view of FIG. 9. The broken lines in the drawings depict unclaimed environmental subject matter.

1 Claim, 5 Drawing Sheets
