(57) **CLAIM**

The ornamental design for a multi-tool for kitchen and/or BBQ, as shown.

**DESCRIPTION**

FIG. 1 is a right side view of the multi-tool for kitchen and/or BBQ;

FIG. 2 is a right side perspective of the multi-tool for kitchen and/or BBQ;

FIG. 3 is a top view of the multi-tool for kitchen and/or BBQ;

FIG. 4 is a bottom view of the multi-tool for kitchen and/or BBQ;

FIG. 5 is a left side view of the multi-tool for kitchen and/or BBQ;

FIG. 6 is a left side perspective of the multi-tool for kitchen and/or BBQ;

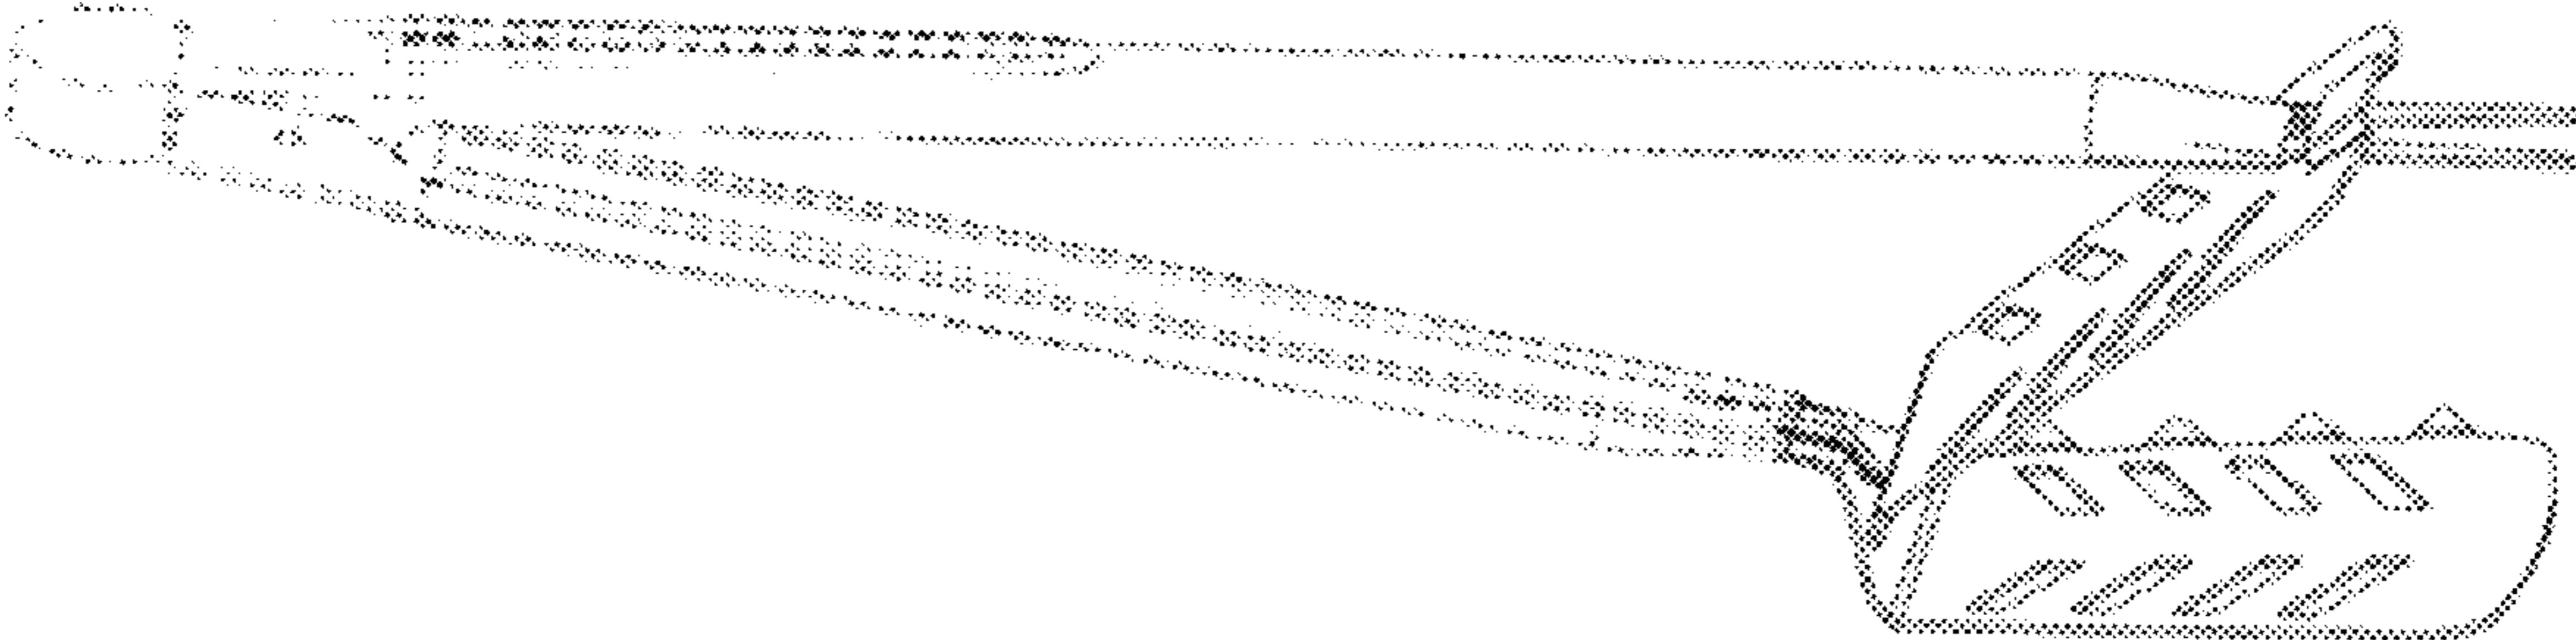

FIG. 7 is a back side view of the multi-tool for kitchen and/or BBQ; and,

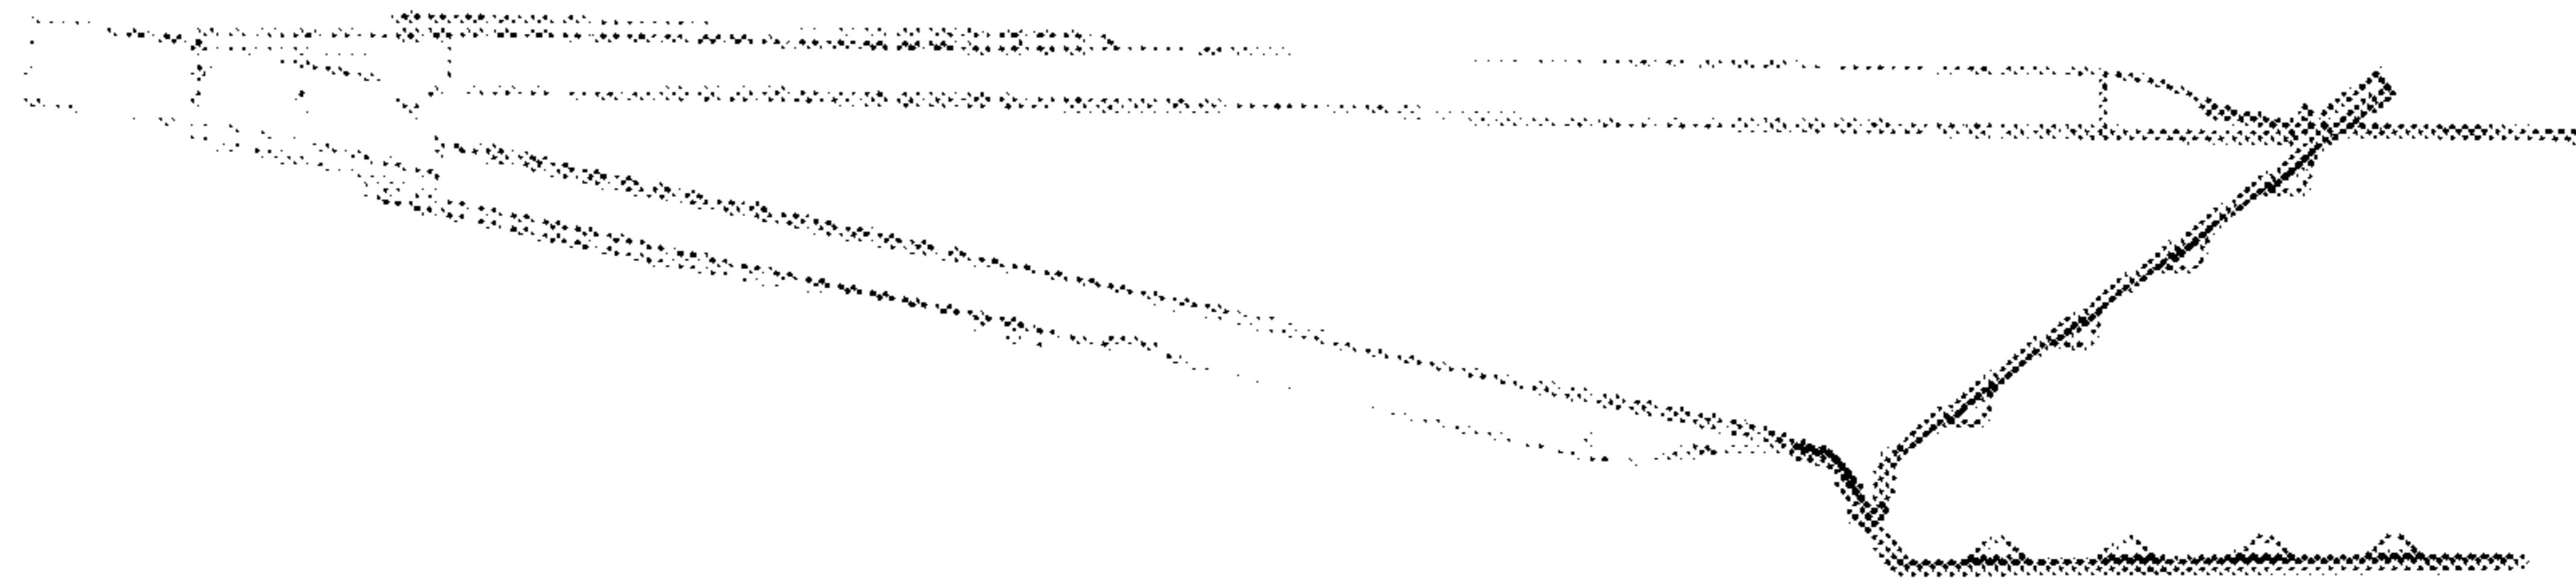

FIG. 8 is a front side view of the multi-tool for kitchen and/or BBQ.

Any broken line illustration in the drawing is not part of the design sought to be patented.

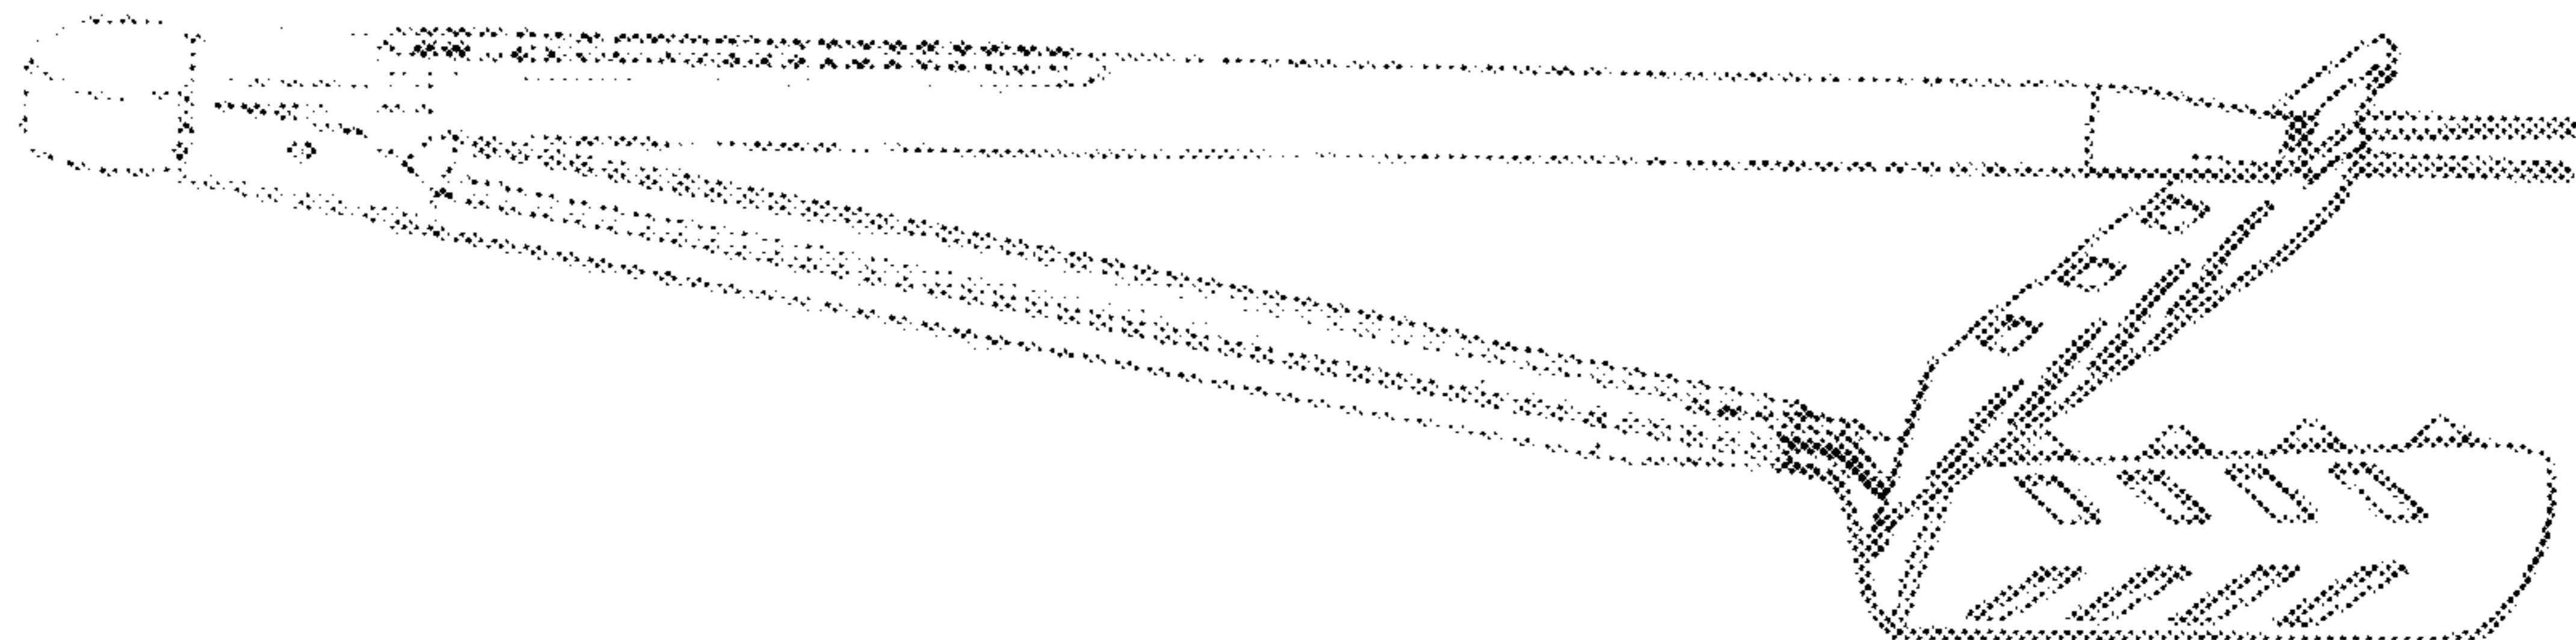

The claimed design of the multi-tool serves the purpose of offering multiple functionalities to the user, in one product (1), for handling food while preparing or serving food. The functionalities of the multi-tool comprise a spatula, tong, toothed tong, fork and a releasing mechanism. The releasing mechanism enables the user to pierce food on the fork and gently release it from the fork by pressing down the upper handle of the multi-tool. While pressing down the upper handle, the upper half of the (toothed) tong slides over the fork, therewith pushing it off the fork.
