(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with graphical user interface showing our new design; and, FIG. 2 is an enlarged, annotated detail view thereof, shown with areas excluded from the claim outlined in broken line for the purpose of clarity.

The broken lines illustrating a display screen form no part of the claimed design. The area between the broken lines of the display screen and the full line rectangle within the graphical user interface forms no part of the claimed design. The four vertically aligned squares and the smaller square on the right side within the full lined rectangle form no part of the claimed design. The full line rectangle and the remainder of the graphical user interface within the full line rectangle is claimed subject matter.
