(57) **CLAIM**

The ornamental design for a flexible medical adhesive sheet with scalloped edges, as shown and described.

DESCRIPTION

FIG. 1 is a top view of the flexible medical adhesive sheet with scalloped edges of the claimed invention; FIG. 2 is a right side view thereof, the left side view being a mirror image thereof; FIG. 3 is a bottom view thereof; and, FIG. 4 is an end view thereof, the other end view being a mirror image thereof.

The broken line showing of the flexible medical adhesive sheet with scalloped edges illustrates the environment of the claimed design and forms no part thereof.

The flexible medical adhesive sheet with scalloped edges is shown with a symbolic break in its length in FIGS. 1-3. The appearance of any portion of the article between the break lines forms no part of the claimed design.

The straight broken line segments adjacent to the claimed surfaces in the drawing figures represent the boundaries of the claimed surfaces of the flexible medical adhesive sheet with scalloped edges, although the claimed design does not include the broken line segments.
