See application file for complete search history.

FIG. 1 is a front view of a first image in a sequence for a display screen or portion thereof with graphical user interface morphing window control;
FIG. 2 is a front view, showing a second image thereof;
FIG. 3 is a front view, showing a third image thereof; and,
FIG. 4 is a front view, showing a fourth image thereof.
The appearance of the image transitions sequentially between FIGS. 1-4. The process or period in which an image transitions to another forms no part of the claimed design. The broken lines showing portions of a display screen, text, background imagery and other features in the figures are environmental only and form no part of the claimed design. The text shown, and its specific placement, are merely illustrative and form no part of the claimed design. Stipple fill areas illustrate a contrast in appearance.
