(57) **CLAIM**

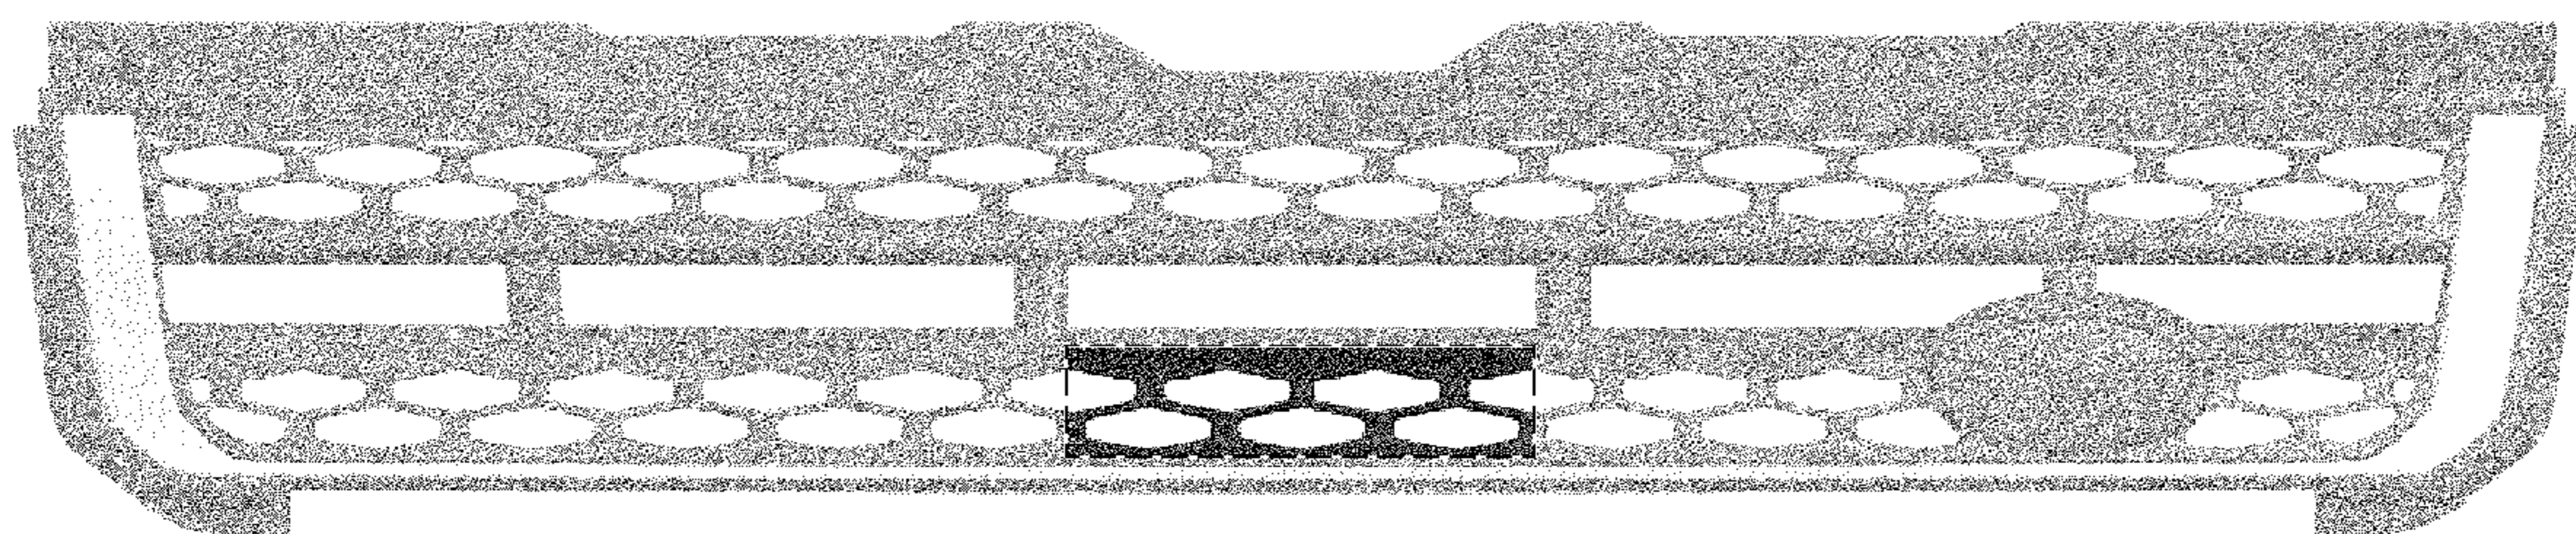

The ornamental design for a vehicle grille with mesh pattern,
as shown and described.

DESCRIPTION

FIG. 1 shows, within the broken lines, a front view of a grille
mesh pattern for a vehicle according to the present inven-
tion. The de-emphasized and halftone portions shown in
FIG. 1, located outside of the broken lines, form no part of
the claimed invention, but instead illustrate environmental
structure of the remaining unclaimed portions of the grille.
FIG. 2 is an enlarged view of the vehicle grille with mesh
pattern shown in FIG. 1; and,
FIG. 3 is a front three-quarter view of the vehicle grille with
mesh pattern shown in FIG. 1.

The claimed design corresponds to the portions of the
vehicle grille shown in a dark contrast and within the broken
line boundaries. The actual broken lines, however, do not
form part of the claimed design. Additionally, the portions of
the vehicle grille shown in a light contrast and beyond the
broken line boundaries do not form part of the claimed
design.
