(57) **CLAIM**

The ornamental design for a built-in home appliance display screen with transitional graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front perspective view of a built-in home appliance having a display screen with transitional graphical user interface in accordance to my new design;

FIG. 2 is an enlarged front view of a first image of the display screen with transitional graphical user interface; and, FIG. 3 is an enlarged front view of a second image thereof.

In FIG. 1, the broken lines showing the built-in home appliance are provided for the purpose of illustrating environmental structure and forms no part of the claimed design. The broken line perimeter in showing the display screen and the broken lines showing elements of the graphical user interface are provided to illustrate portions of the article that forms no part of the claimed design.

The appearance of the design sequentially transitions between the enlarged images shown in FIGS. 2 and 3. The process or period in which one image transitions to another image forms no part of the claimed design.
