See application file for complete search history.

The ornamental design for a protective cover of imaging plate for X-ray inspection, as shown and described.

#### DESCRIPTION

FIG. 1 is a top, front and right side perspective view of a protective cover of imaging plate for X-ray inspection showing my new design; FIG. 2 is a top, rear and left side perspective view thereof; FIG. 3 is a front elevational view thereof; FIG. 4 is a rear elevational view thereof; FIG. 5 is a top plan view thereof; FIG. 6 is a bottom plan view thereof; FIG. 7 is a left side elevational view thereof; FIG. 8 is a right side elevational view thereof; FIG. 9 is a top, rear and left side perspective view of the present article and an imaging plate; FIG. 10 is a top, rear and left side perspective view of an assembly of the present article and the imaging plate; and, FIG. 11 is a top, rear and left side perspective view of the assembly of the present article and the imaging plate, which is attached to a turbine unit and used in an X-ray inspection of the turbine unit, in a manner of use.
