(57) **CLAIM**

The ornamental design for a power and multimedia center
device, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view showing an embodiment of our
new design for a power and multimedia center device of the
present invention.

FIG. 2 is a front elevation view thereof.

FIG. 3 is a rear elevation view thereof.

FIG. 4 is a right side elevation view thereof.

FIG. 5 is a left side elevation view thereof.

FIG. 6 is a bottom plan view thereof.

FIG. 7 is a top plan view thereof; and,

FIG. 8 is a perspective view showing the embodiment of our
new design for a power and multimedia center device shown
in FIG. 1 when the upper portion is rotated in 160 degrees
relative to the bottom part.

In the drawings, the broken lines are for the purpose of
illustrating environment only and form no part of the
claimed design.

The present invention is a power and multimedia center
device especially designed for a device that provides power
to portable devices and universal video-audio interface as
well as connected display or projector.

1 Claim, 4 Drawing Sheets
