(57) **CLAIM**

The ornamental design for a display screen with graphical user interface for managing and monitoring physical sources used for cloud computing, as shown and described.

**DESCRIPTION**

The FIGURE is a front view of a display screen with graphical user interface for managing and monitoring physical sources used for cloud computing showing our new design.

The dash-dot broken line showing of a display screen forms no part of the claimed design. The broken line showing of the remainder of the graphical user interface forms no part of the claimed design.
