(57) **CLAIM**

The ornamental design for a video viewing display screen with graphical user interface for rotatable display, as shown and described.

DESCRIPTION

FIG. 1 is the first image in a sequence for a video viewing display screen with graphical user interface for rotatable display, showing our new design; FIG. 2 is the second image thereof; FIG. 3 is the third image thereof; FIG. 4 is the fourth image thereof; FIG. 5 is the fifth image thereof; FIG. 6 is the sixth image thereof; FIG. 7 is the seventh image thereof; FIG. 8 is the eighth image thereof; FIG. 9 is the ninth image thereof; FIG. 10 is the tenth image thereof; FIG. 11 is the eleventh image thereof; FIG. 12 is the twelfth image thereof; FIG. 13 is the thirteenth image thereof; and, FIG. 14 is the final image thereof.

The perimeters of the portion of the underlying portion of a display screen and the graphical user interface are understood to be flush.

The appearance of the video viewing display screen with graphical user interface for rotatable displays sequentially transitions between the images shown in FIGS. 1-14. The process or period in which one image transitions to another forms no part of the claimed design. The broken lines shown in the figures are for environmental purposes only, depict unclaimed portions of the video viewing display screen with graphical user interface for rotatable display and form no part of the claim design.

1 Claim, 14 Drawing Sheets
