(57) **CLAIM**

The ornamental design for a stacking system for electronic equipment, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a first aspect of the stacking system for electronic equipment, in which both pieces of electronic equipment are right-side up.
 FIG. 2 is a front view of the stacking system for electronic equipment of FIG. 1.
 FIG. 3 is a rear view of the stacking system for electronic equipment of FIG. 1.
 FIG. 4 is a right side view of the stacking system for electronic equipment of FIG. 1.
 FIG. 5 is a left side view of the stacking system for electronic equipment of FIG. 1.
 FIG. 6 is a top view of the stacking system for electronic equipment of FIG. 1.
 FIG. 7 is a bottom view of the stacking system for electronic equipment of FIG. 1.
 FIG. 8 is a perspective view of a second aspect of the stacking system for electronic equipment, in which the lower piece of electronic equipment is upside down.
 FIG. 9 is a front view of the stacking system for electronic equipment of FIG. 8.
 FIG. 10 is a rear view of the stacking system for electronic equipment of FIG. 8.
 FIG. 11 is a right side view of the stacking system for electronic equipment of FIG. 8.
 FIG. 12 is a left side view of the stacking system for electronic equipment of FIG. 8.
 FIG. 13 is a top view of the stacking system for electronic equipment of FIG. 8.
 FIG. 14 is a bottom view of the stacking system for electronic equipment of FIG. 8.
 FIG. 15 is a perspective view of a third aspect of the stacking system for electronic equipment, in which the lower piece of

(Continued)

electronic equipment is upside down and both pieces of equipment are secured by a flat, plain, rectangular element. FIG. 16 is a front view of the stacking system for electronic equipment of FIG. 15.

FIG. 17 is a rear view of the stacking system for electronic equipment of FIG. 15.

FIG. 18 is a right side view of the stacking system for electronic equipment of FIG. 15.

FIG. 19 is a left side view of the stacking system for electronic equipment of FIG. 15.

FIG. 20 is a top view of the stacking system for electronic equipment of FIG. 15.

FIG. 21 is a bottom view of the stacking system for electronic equipment of FIG. 15.

FIG. 22 is a perspective view of a fourth aspect of the stacking system for electronic equipment, in which two of the stacking systems for electronic equipment shown in FIG. 15 are separated by an additional piece of electronic equipment.

FIG. 23 is a front view of the stacking system for electronic equipment of FIG. 22.

FIG. 24 is a rear view of the stacking system for electronic equipment of FIG. 22.

FIG. 25 is a right side view of the stacking system for electronic equipment of FIG. 22.

FIG. 26 is a left side view of the stacking system for electronic equipment of FIG. 22.

FIG. 27 is a top view of the stacking system for electronic equipment of FIG. 22; and,

FIG. 28 is a bottom view of the stacking system for electronic equipment of FIG. 22.

The portions of the stacking system for electronic equipment shown in broken lines form no part of the claimed design.

UNITED STATES PATENT AND TRADEMARK OFFICE
CERTIFICATE OF CORRECTION

PATENT NO. : D776,106 S
APPLICATION NO. : 29/539197
DATED : January 10, 2017
INVENTOR(S) : Marc A. Gessford et al.

Page 1 of 1

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

On the Title Page

On page 2, left-hand Column, Line 1, please replace “upside flown” with “upside down”.

On page 2, left-hand Column, Line 2, please replace “fiat” with “flat”.

Signed and Sealed this
Nineteenth Day of September, 2017

Joseph Matal
*Performing the Functions and Duties of the
Under Secretary of Commerce for Intellectual Property and
Director of the United States Patent and Trademark Office*
