(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface for navigating event information, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence for a display screen with transitional graphical user interface for navigating event information;

FIG. 2 is a front view, showing a second image thereof;

FIG. 3 is a front view, showing a third image thereof;

FIG. 4 is a front view, showing a fourth image thereof;

FIG. 5 is a front view, showing a fifth image thereof;

FIG. 6 is a front view, showing the third image in the sequence, in a second embodiment thereof;

FIG. 7 is a front view, showing the third image in the sequence, in a third embodiment thereof;

FIG. 8 is a front view, showing the third image in the sequence, in a fourth embodiment thereof;

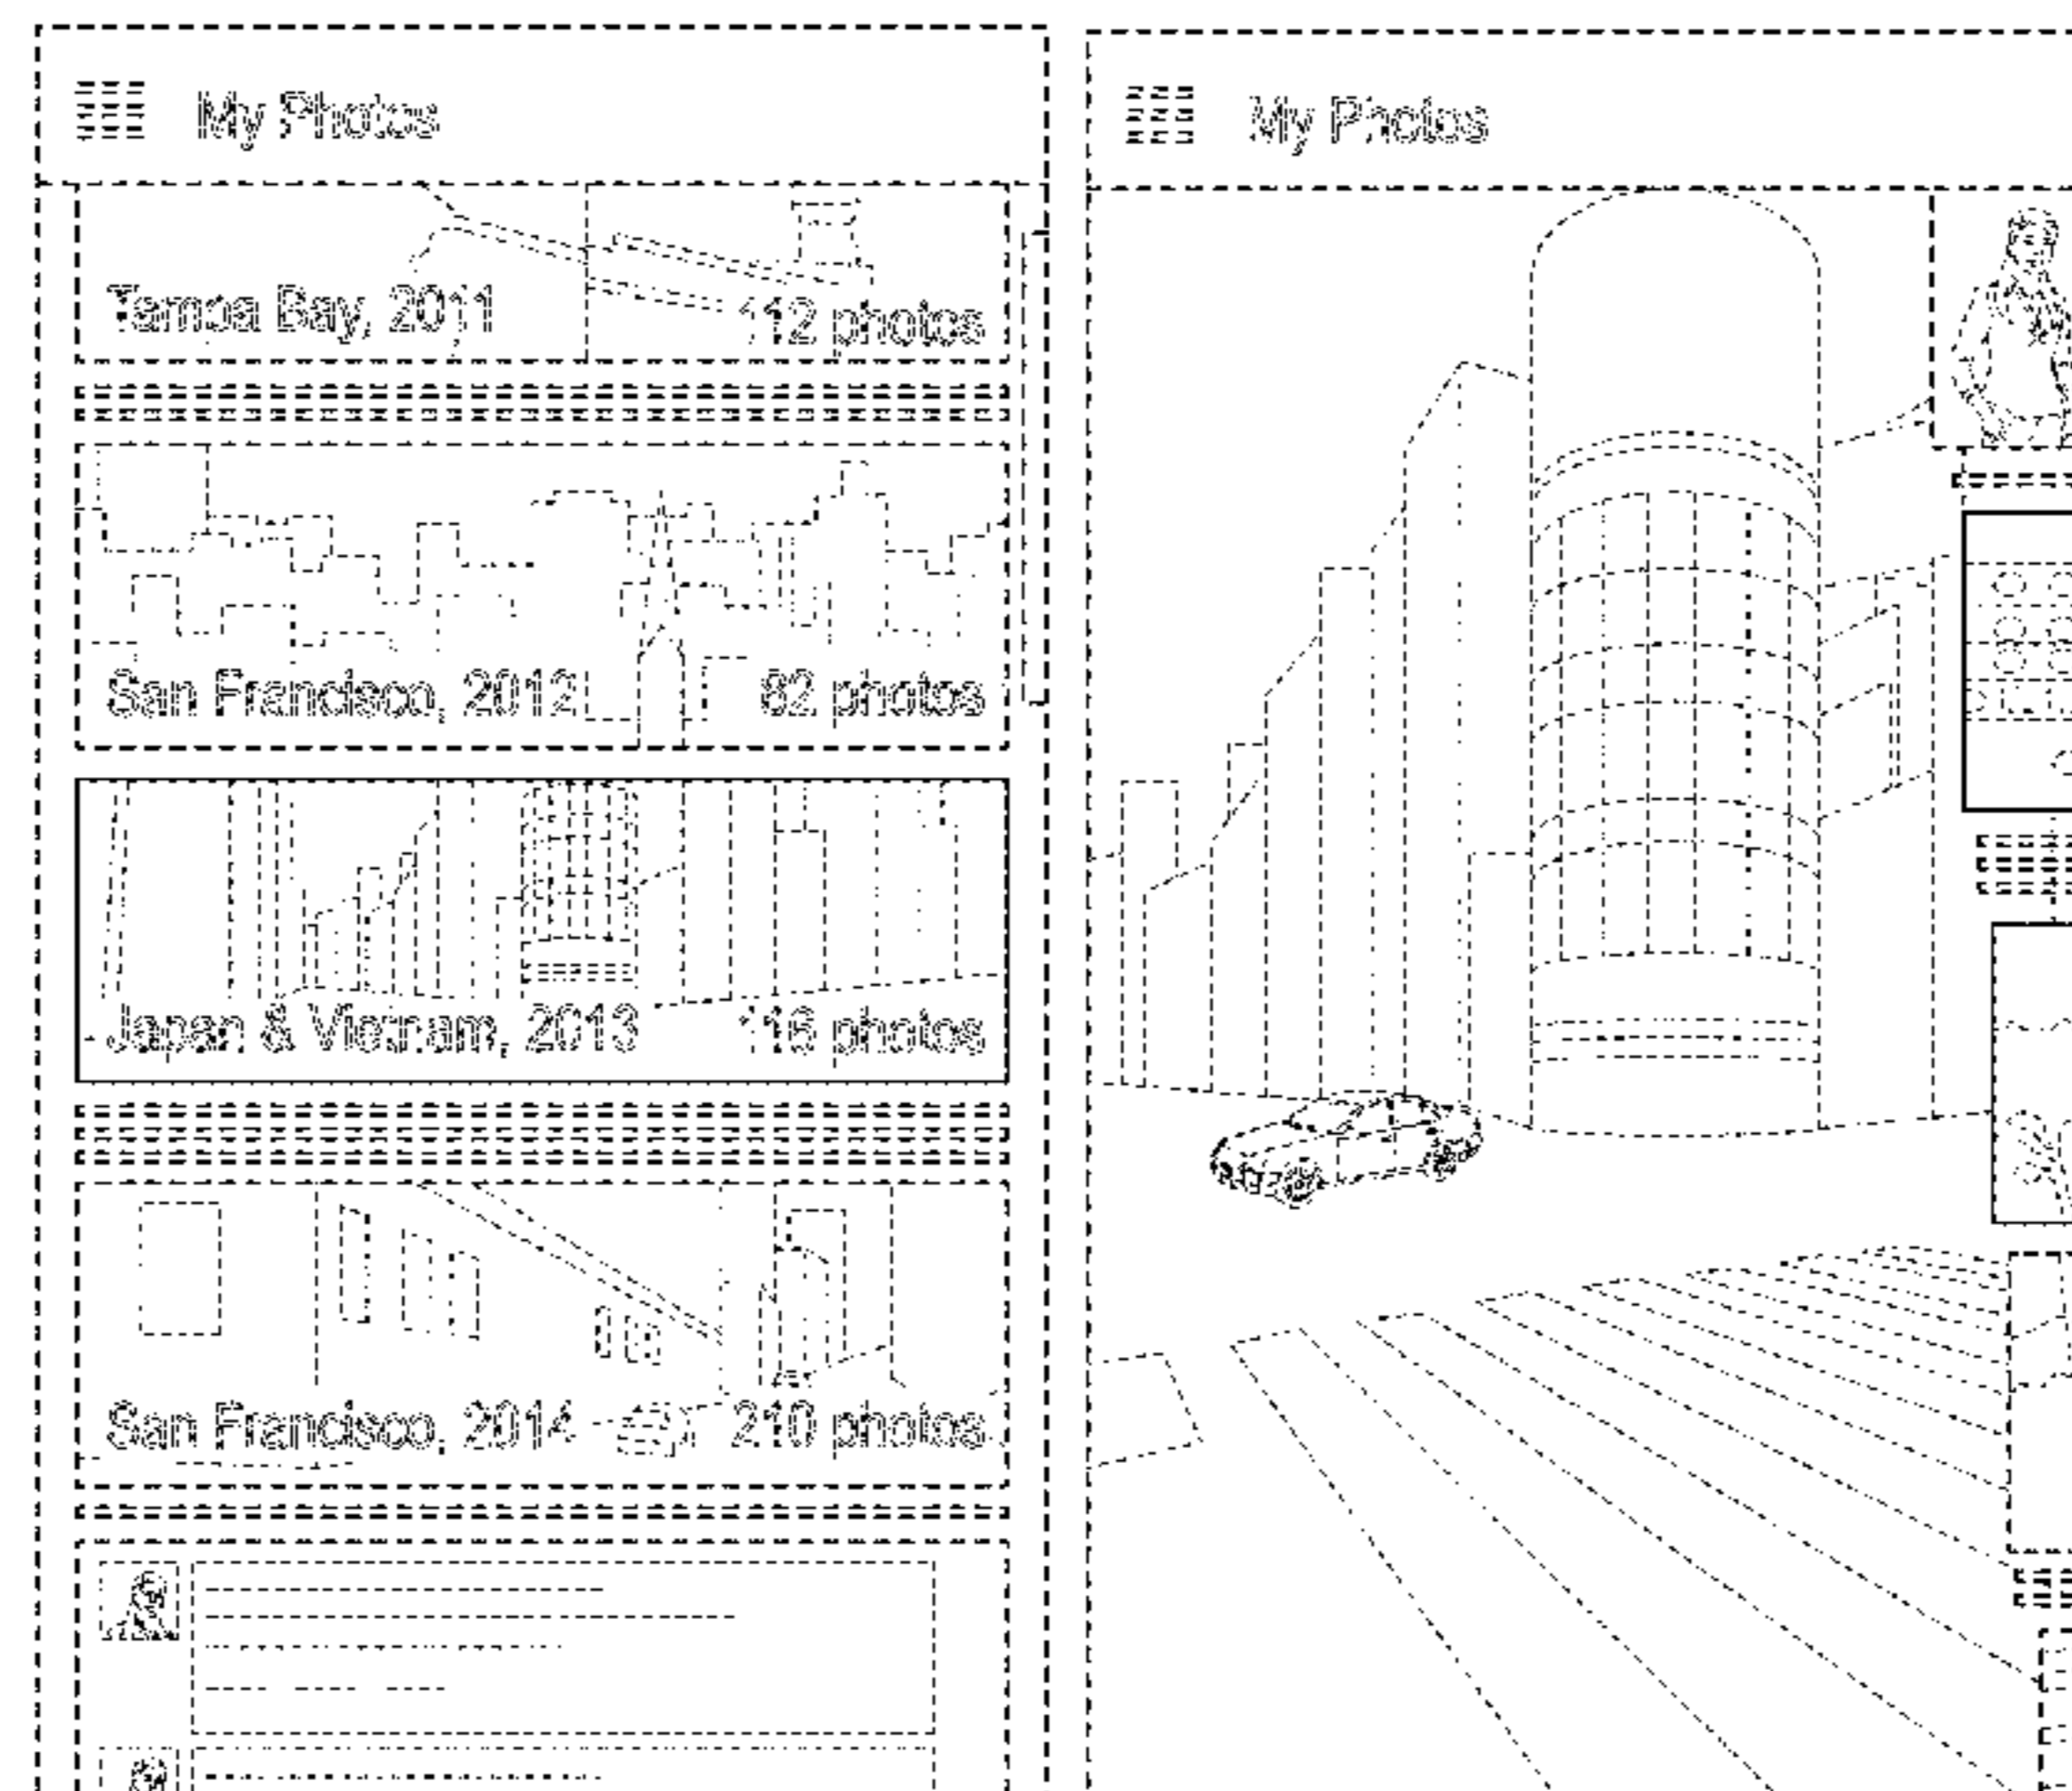

FIG. 9 is a front view, showing the third image in the sequence, in a fifth embodiment thereof; and,

FIG. 10 is a front view, showing the third image in the sequence, in a sixth embodiment thereof.

The appearance of the transitional image of the first embodiment sequentially transitions between the images shown in FIGS. 1-5, respectively. The appearance of the transitional image of the second embodiment sequentially transitions between the images shown in FIGS. 1, 2, 6, and 5, respectively. The appearance of the transitional image of the third embodiment sequentially transitions between the images shown in FIGS. 1, 2, 7, and 5, respectively. The appearance of the transitional image of the fourth embodiment sequentially transitions between the images shown in FIGS. 1, 2, 8, and 5, respectively. The appearance of the transitional image of the fifth embodiment sequentially transitions between the images shown in FIGS. 1, 2, 9, and 5, respectively. The appearance of the transitional image of the sixth embodiment sequentially transitions between the images shown in FIGS. 1, 2, 10, and 5, respectively. The process or period in which one image transitions to another image forms no part of the claimed design.

The broken lines form no part of the claimed design. The outer rectangle in broken lines is included to show an unclaimed portion of an example display screen and forms no part of the claimed design. The portions of the transitional graphical user interface shown in broken lines form no part of the claimed design.

1 Claim, 10 Drawing Sheets
