(57) **CLAIM**

The ornamental design for a display panel or screen with a graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a display panel or screen with a first image of a graphical user interface showing my new design;
FIG. 2 is a front elevational view of a second image thereof;
FIG. 3 is a front elevational view of a third image thereof; and,
FIG. 4 is a front elevational view of a fourth image thereof. The subject matter in this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design. The broken line showing of a display panel or screen forms no part of the claimed design.
