(57) **CLAIM**

We claim the ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first embodiment of a display screen or portion thereof with graphical user interface. FIG. 2 is a front view of a second embodiment of the display screen or portion thereof with graphical user interface; FIG. 3 is a front view of a third embodiment of the display screen or portion thereof with graphical user interface; FIG. 4 is a front view of a fourth embodiment of the display screen or portion thereof with graphical user interface; FIG. 5 is a front view of a fifth embodiment of the display screen or portion thereof with graphical user interface; FIG. 6 is front view of a sixth embodiment of the display screen or portion thereof with graphical user interface; FIG. 7 is front view of a seventh embodiment of the display screen or portion thereof with graphical user interface; and, FIG. 8 is front view of a eighth embodiment of the display screen or portion thereof with graphical user interface. The perimeters of the portion of the underlying portion of a display screen and the graphical user interface are understood to be flush. The broken line showing of the text and numbers (illustrated in cross-hatching) in FIGS. 1-8 illustrate portions of the display screen or portion thereof with graphical user interface and form no part of the claimed design.
