(57) CLAIM

We claim the ornamental design for a display screen or portion thereof with transitional icon, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material to which a claim for copyright is made. The copyright owner has no objection to the reproduction of the patent document or the patent disclosure, as it appears in the U.S. Patent Office records, but reserves all other copyright rights whatsoever.

FIG. 1 is a front view of a display screen or portion thereof with transitional icon showing the new design;

FIG. 2 is a front view of a second image thereof;

FIG. 3 is a front view of a third image thereof;

FIG. 4 is a front view of a fourth image thereof;

FIG. 5 is a front view of a fifth image thereof; and,

FIG. 6 is a front view of a sixth image thereof.

In the first embodiment, the appearance of the transitional image sequentially transitions from the image shown in FIG. 1 to the image shown in FIG. 5. In the second embodiment, the appearance of the transitional image sequentially transitions from the image shown in FIG. 1 to the image shown in FIG. 6.

In the third embodiment, the appearance of the transitional image sequentially transitions from the image shown in FIG. 2 to the image shown in FIG. 4. In the fourth embodiment, the appearance of the transitional image sequentially transitions from the image shown in FIG. 2 to the image shown in FIG. 5. In the fifth embodiment, the appearance of the transitional image sequentially transitions from the image shown in FIG. 2 to the image shown in FIG. 6.

In the sixth embodiment, the appearance of the transitional image sequentially transitions from the image shown in FIG. 3 to the image shown in FIG. 4. In the seventh embodiment, the appearance of the transitional image sequentially transitions from the image shown in FIG. 3 to the image shown in FIG. 5. In the eighth embodiment, the appearance of the

transitional image sequentially transitions from the image shown in FIG. 3 to the image shown in FIG. 6.

The subject matter in this patent includes a process or period in which an image changes into another image. This process or period does not form any part of the claimed design. Further, the broken lines in the drawings showing a display screen or portion thereof, as well as the broken lines depicting lettering (shown in reverse broken lines), illustrate environmental subject matter and do not form any part of the claimed design.
