(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first embodiment of a display screen or portion thereof with graphical user interface showing our new design;

FIG. 2 is a front view of a display screen or portion thereof with graphical user interface according to the first embodiment;

FIG. 3 is a front view of a second embodiment of a display screen or portion thereof with graphical user interface;

FIG. 4 is a front view of a display screen or portion thereof with graphical user interface according to the second embodiment;

FIG. 5 is a front view of a third embodiment of a display screen or portion thereof with graphical user interface;

FIG. 6 is a front view of a fourth embodiment of a display screen or portion thereof with graphical user interface;

FIG. 7 is a front view of a fifth embodiment of a display screen or portion thereof with graphical user interface;

FIG. 8 is a front view of a display screen or portion thereof with graphical user interface according to the fifth embodiment;

FIG. 9 is a front view of a sixth embodiment of a display screen or portion thereof with graphical user interface;

FIG. 10 is a front view of a display screen or portion thereof with graphical user interface according to the sixth embodiment;

FIG. 11 is a front view of a seventh embodiment of a display screen or portion thereof with graphical user interface; and,

FIG. 12 is a front view of an eighth embodiment of a display screen or portion thereof with graphical user interface.

The outermost broken lines show a display screen or portion thereof and form no part of the claimed design. The remain-
