FIG. 1 is a first image of a display screen with animated graphical user interface;
FIG. 2 is a second image thereof;
FIG. 3 is a third image thereof;
FIG. 4 is a fourth image thereof; and,
FIG. 5 is a fifth image thereof.

The broken lines illustrate a mobile electronic device as well as portions of a graphical user interface. The broken lines form no part of the claimed design. The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-5, and in a second embodiment, FIGS. 5-1. Tonal shading shown in the drawings which depicts the illusion of overlapping elements is a visual feature of the graphical user interface and is included in the claimed design.
