(57) **CLAIM**

The ornamental design for a meter panel for construction equipment, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the meter panel for construction equipment according to the invention; FIG. 2 is a front elevation view of the meter panel for construction equipment of FIG. 1; FIG. 3 is a rear elevation view of the meter panel for construction equipment of FIG. 1; FIG. 4 is a right side elevation view of the meter panel for construction equipment of FIG. 1; FIG. 5 is a left side elevation view of the meter panel for construction equipment of FIG. 1; FIG. 6 is a top plan view of the meter panel for construction equipment of FIG. 1; FIG. 7 is a bottom plan view of the meter panel for construction equipment of FIG. 1; FIG. 8 is a second perspective view of the meter panel for construction equipment of FIG. 1, showing the meter panel in its construction equipment environment; FIG. 9 is a third perspective view of the meter panel for construction equipment of FIG. 1, showing the meter panel in its construction equipment environment; and, FIG. 10 is a fourth perspective view of the meter panel for construction equipment of FIG. 1, showing the meter panel in its construction equipment environment. The broken line disclosure, as well as line shading in parts of the drawings are included for the purpose of illustrating use and environment and form no part of the claimed design.
